

From LCAP the Plan to LCAP the Achievement Game Changer

Connecting Accountability to Capacity Building

“No amount of external accountability will be effective in the absence of internal accountability.” – Richard Elmore

ACSA and InnovateEd are partnering to provide a “Systems Based” Leadership Institute for Principals & Site-Based Leadership Teams to support schools in transitioning their LCAP Plan into a dynamic tool that drives student success.

This powerful four-day institute will equip school leadership teams with insight and resources into the four disciplines of “Systems Leadership”, proven to increase site-driven improvement efforts and enhance internal capacity and accountability.

Suggested Audience: School site teams made up of Principals, Assistant Principals, Counselors, Deans, School Site Leadership Teams and Teacher Leaders.

The Principal & Site-Level “Systems Leadership” Institute will emphasize:

- Educational neuroscience
- Developing staff capacity to lead teaching and learning improvement
- Evidence of learning to target student skills and improve staff practices and school-wide supports
- Best instructional practices to boost student engagement and achievement
- The seven habits of highly effective instructional leaders
- Coherence between ESSA, LCAP, Common Core and Systems Leadership

Each institute is constructed of four (4) days. There are several locations to choose from. One fee pays for all four days. Please attend all 4 days:
