# Preface

This guide provides technical information on California's new accountability system, specifically in regards to the state indicators reported in the California School Dashboard. The guide is intended for accountability coordinators at local educational agencies (LEAs) to access the calculation methodology and rules used to produce each of the state indicators.

This guide is not intended to serve as a substitute for state and federal laws or regulations or to detail all of an accountability coordinator's responsibilities in applying accountability requirements to an LEA or school. The guide should be used in conjunction with academic accountability information provided through the California Department of Education (CDE) California Accountability Model Web page at <http://www.cde.ca.gov/ta/ac/cm/index.asp> and from e-mail and correspondence disseminated by the CDE to accountability coordinators.

For information about being added to the CDE accountability coordinators listserv, please visit the Accountability Listserv Web page at <http://www.accountabilityinfo.org/> or contact the Academic Accountability Unit (AAU) by phone at 916-319-0863 or by e-mail at [aau@cde.ca.gov](mailto:aau@cde.ca.gov).

This guide is produced by the CDE's AAU, Data Visualization and Reporting Office, and Data Reporting Office in the Analysis, Measurement, and Accountability Reporting Division.

Questions about:

- Calculations of the state indicators, the College/Career Indicator, and the Grade Eleven Distance from Level 3 Report should be addressed to the AAU at by phone at 916-319-0863 or by e-mail at [aau@cde.ca.gov](mailto:aau@cde.ca.gov).
- Technical errors in accessing the Dashboard, importing local indicators into the Dashboard, and questions regarding the Local Control Funding Formula should be addressed to the Local Agency Support Systems Office by e-mail at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).

Material in this publication is not copyrighted and may be reproduced.

---

# The New Integrated Accountability and Continuous Improvement System

---

## Background

On September 8, 2016, the State Board of Education (SBE) approved key elements of a new integrated accountability and continuous improvement system that will evaluate local educational agency (LEA) and school performance in areas critical to students' preparedness for college and career. These areas are founded on the Local Control Funding Formula (LCFF) ten state priorities and include graduation rates, suspension rates, college/career preparedness, assessment scores, and the progress of English learners (ELs).

With the implementation of the LCFF in 2014, LEAs are held accountable for improving student performance. Specifically, state law requires ten priority areas that school districts and charter schools must report in their Local Control and Accountability Plan (LCAP). (Note: Two of the priority areas are limited to county offices of education [COEs].) These priority areas range from student achievement (performance on standardized tests and percent of ELs that become English proficient); school climate (suspension rates); and student engagement (graduation rates, chronic absenteeism rates, dropout rates, etc.). (Information on the LCFF priority areas can be accessed on the CDE State Priority Related Resources Web page at <http://www.cde.ca.gov/fg/aa/lc/statepriorityresources.asp>.)

In December 2015, the Every Student Succeeds Act (ESSA) was signed into federal law, which reauthorized the Elementary and Secondary Education Act (ESEA) and replaced the No Child Left Behind Act of 2001. One of the requirements under this law is for states to have a new multiple measures accountability system in effect by the 2017–18 school year based on the following five areas:

1. Achievement as measured by proficiency based on annual state assessments
2. Four-year cohort graduation rates for high schools
3. Another academic indicator for elementary and middle schools (e.g., growth measure)
4. Progress in English language proficiency for ELs
5. At least one other indicator of school quality or student success that is valid, reliable, comparable, and statewide (e.g., postsecondary readiness, student engagement, etc.)

(The ESSA can be accessed on the U.S. Department of Education Every Student Succeeds Act Web page at <http://www.ed.gov/essa>.)

## An Integrated Accountability System

Rather than developing two accountability systems—one that meets state requirements (LCFF) and another that meets federal requirements (ESSA)—a new integrated local, state, and federal accountability and continuous improvement system that is founded on the LCFF priority areas but also aligns to ESSA requirements has been developed.

This new system, based on multiple measures, will use the California School Dashboard (hereafter referred to as the Dashboard), which includes state and local performance standards for all LCFF priorities, to report progress. These performance standards will be used to support LEAs in identifying strengths, weaknesses, and areas for improvement; to assist in determining whether LEAs are eligible for assistance; and to assist the State Superintendent of Public Instruction in determining whether LEAs are eligible for more intensive state support/intervention.

Figure 1 illustrates the components under the new accountability system.

**Figure 1 State and Local Indicators Listed by Priority Areas**

| Priority Areas  | State Indicator  | Local Indicator  |
|---|--|--|
| <b>Priority 1:</b> Basic Services or Basic Condition at schools | N/A  | Text books availability, adequate facilities, and correctly assigned teachers  |
| <b>Priority 2:</b> Implementation of State Academic Standards   | N/A  | Annually report on progress in implementing the standards for all content areas  |
| <b>Priority 3:</b> Parent Engagement                            | N/A  | Annually report progress toward: (1) seeking input from parents/guardians in decision making; and (2) promoting parental participation in programs |
| <b>Priority 4:</b> Student Achievement                          | <ul style="list-style-type: none"> <li>Academic Indicator (Grades 3–8)</li> <li>English Learners Progress Indicator</li> </ul>                     | <ul style="list-style-type: none"> <li>Grade 11 Distance from Level 3 Report</li> </ul>  |
| <b>Priority 5:</b> Student Engagement                           | <ul style="list-style-type: none"> <li>Graduation Rate Indicator</li> <li>Chronic Absenteeism Indicator (not available until fall 2018)</li> </ul> | N/A  |
| <b>Priority 6:</b> School Climate                               | Suspension Rate Indicator  | Administer a Local Climate Survey every other year   |
| <b>Priority 7:</b> Access to a Broad Course of Study            | N/A  | College/Career Indicator (A local indicator for the initial release of the Dashboard)  |
| <b>Priority 8:</b> Outcomes in a Broad Course of Study          |  |  |

| Priority Areas   | State Indicator(s) | Local Indicators   |
|--|--------------------|--|
| <b>Priority 9: (COEs Only)</b><br>Coordination of Services for Expelled Students |                    | Annual survey that measures progress in coordinating instruction for expelled students |
| <b>Priority 10: (COEs Only)</b><br>Coordination of Services for Foster Youth     |                    | Annual survey that measures progress in coordinating services for foster youth         |

By reporting performance on multiple measures that impact student performance across the LCFF priorities, the new accountability system provides a more complete picture of LEAs and schools, including their accomplishments and challenges. It also promotes equity by clearly identifying the achievement gaps among student groups. For LEAs and schools in need of additional assistance or intervention, the Dashboard will help identify target areas of need.

**State Indicators**

Each state indicator illustrated in Figure 1 will be described in detail in a section titled “State Indicators.” Detailed information will include, in part, technical information on the various calculation methodologies and rules used to calculate each of these indicators. Because chronic absenteeism data are being collected for the first time through the 2017 end-of-year California Longitudinal Pupil Achievement Data System (CALPADS) reporting, these data will not be available to use for the initial release of the Dashboard in early 2017. The SBE will determine when these data can be used for accountability at a future meeting.

**Local Indicators**

Figure 1 also identifies the local indicators that are uploaded by LEAs into the Dashboard. Note that **schools will not have local indicators** reported in their Dashboard. **Local indicators are a feature in the LEA Dashboard only.** The section titled “Local Indicators” within this Technical Guide will provide technical information on the local indicators that will be reported in the initial release.

**2017 Dashboard Reporting Timeline**

- February 2017: LEA Preview of the Dashboard  
The Dashboard will only be accessible to LEAs. The preview period will allow LEAs to provide feedback to the CDE.
- March 2017: Public Release of the Dashboard  
The data results reflected in the March 2017 Dashboard will not be used to identify districts for support or intensive interventions.
- Fall 2017: Release of the 2017–18 Dashboard  
The data results reflected in the fall 2017 Dashboard will be used to identify districts for technical assistance. Note: Subsequent years will adhere to the fall release schedule for the Dashboard.

# Who Gets a Dashboard?

**All LEAs and traditional schools, including charter schools, will receive accountability results reported within their Dashboard.**

## Exception: Alternative Schools

Alternate indicators are in development for alternative schools. Therefore, all alternative schools (i.e., continuation, juvenile hall, and schools that participate in the Alternative Schools Accountability Model [ASAM]) **will not** be included in the current release of the Dashboard. It is anticipated that the new accountability system for alternative schools will continue development through the 2017–18 school year for potential launch in fall 2018.

### ***Alternative Schools Accountability Model: Application Process and Current School List***

To view a current list of all participating ASAM schools, or to get information on how to apply to become an ASAM school, please access the CDE ASAM Web page at <http://www.cde.ca.gov/ta/ac/am/>.

Schools that were approved and designated as ASAM as of June 30, 2016, **will not** be included in the current release of the Dashboard and **were excluded** from the distributions used to set cut scores for each of the state indicators.

## Local Educational Agency-Level Data: Alternative and Charter Schools

Since alternative schools will be held accountable under a separate accountability system (as noted above), these schools' data are not "rolled up" or included in the LEA results.

Since charter schools are treated as LEAs under the LCFF, these schools' data are also not "rolled up" or included in the charter authorizing agency's results.

Please note that since alternative and charter schools' results are not included in the LEA data, the graduation and suspension rates reported in the LEA Dashboards **will not match** the **graduation and suspension rates** reported in the CDE's **DataQuest**. The graduation and suspension rates displayed in LEA Reports on the DataQuest Web site includes charter and alternative schools' data.

# How Do You Get a Performance Level (or Color)?

Figure 2: Sample Dashboard Report

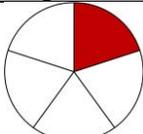

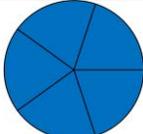

At the May 2016 SBE meeting, the SBE approved the methodology for calculating performance on the state indicators.

The adopted methodology, known as the California Model, is two-dimensional and uses two data components: Status and Change.

| State Indicators                | All Students Performance   |
|---------------------------------|--|
| Chronic Absenteeism             | N/A  |
| Suspension Rate (K-12)          |   |
| English Learner Progress (K-12) |   |
| Graduation Rate (9-12)          |   |
| College & Career                | N/A  |
| English Language Arts (K-8)     |   |
| Mathematics (K-8)               |  |

## Colored Circles

Throughout the Dashboard, information on the state indicators will include circles, such as those under the “All Students Performance” column in Figure 2 above. The circles represent performance levels, which identify if standards were met. Each circle has a different number of colored segments. For example:

| Performance Level  | Number of Colored Segments  |
|--|---|
| The red performance level is represented by a five-segmented circle with one segment colored in red:         |  |
| The blue performance level is represented by a five-segmented circle with all five segments colored in blue: |  |

Having differing number of colored segments ensures that individuals who are color blind can distinguish the performance levels (or colors) and allows all viewers to differentiate the performance levels if the report is printed in black and white. The color definitions are explained in detail in the next section.

# The California Model

The SBE approved measuring performance for state indicators through a combination of current performance (Status) and improvement over time (Change). Both Status and Change provide equal weight. The approved cut scores for Status and Change serve as the performance standards for the state indicators and are reported as performance levels (or colors). The adopted methodology is called the California Model.

The performance standards are based on the current distribution of Status and Change for each indicator (much like grading on a curve). Therefore, the performance standards vary by indicator and will generally remain fixed, until the SBE decides to update the standards.

For an LEA, school, or student group to receive a performance level (or color), they must have at least two years of data. The most current year of data are used to determine **Status**. The prior year data (or multi-year average) are used to determine **Change**.

## Status

For each state indicator, there are five Status levels:

| Five Status Levels |
|--------------------|
| Very High          |
| High               |
| Medium             |
| Low                |
| Very Low           |

An LEA, school, or student group’s **current year of data** are used to assign a Status level for each applicable indicator. For example:

- A school is assigned a “High” Status level for the Graduation Rate Indicator if its most current year graduation rate falls in the range for the “High” level.

The five Status levels were established for **each state indicator** through the following process:

1. The current year data (or results) for each indicator were collected for all LEAs and charter schools statewide.
2. These results were ordered from highest to lowest.
3. Four cut scores were established based the percentile distributions to create five Status levels.

## Change

“Change,” in the California Model, is defined as the difference in results from the current year to the prior year or a multi-year average:

$$\text{Status minus } \textit{Prior Year (or Multi-Year Average)} = \text{Change}$$

There are five Change levels for each state indicator:

| Five Change Levels      |
|-------------------------|
| Increased Significantly |
| Increased               |
| Maintained              |
| Declined                |
| Declined Significantly  |

Every LEA, school, or student group is assigned a Change level for each applicable state indicator. For example:

- The suspension rate among ELs declined significantly over the past year. Therefore, this student group is assigned a Change level of “Declined Significantly” for that indicator.

The five Change levels were established for **each state indicator** through the following process:

1. Using prior year and current year(s) data, the difference in performance were calculated for all LEAs and charter schools statewide.
2. The calculated results were grouped into two separate distributions:
  - a. Positive change (ordered from highest to lowest)
  - b. Negative change (ordered from highest to lowest)
3. The two distributions (positive and negative change) were combined.
4. Four cut scores were established to create five Change levels based on percentile distributions.

## Performance Level (or Color)

The combination of the five Status levels and the five Change levels results in 25 performance levels displayed in a five-by-five color table. See Figure 3 for an example of a five-by-five color table.

Each of the 25 performance levels are represented by one of five colors:

| Performance Levels                          |  |
|---|--|
| <b>Blue</b><br><i>(Highest Performance)</i> |  |
| <b>Green</b>                                |  |
| <b>Yellow</b>                               |  |
| <b>Orange</b>                               |  |
| <b>Red</b><br><i>(Lowest Performance)</i>   |  |

The state goal for all state indicators is to **reach the Green** performance level. Any performance level below Green (i.e., Yellow, Orange, or Red) indicates that improvement is needed.

Here is an example on how to use the five-by-five color tables:

An LEA or school with a “High” in **Status** and an “Increased” in **Change** will receive an overall performance level of **Green** for *most* of the state indicators.

**Figure 3**

|        |           | Change                 |          |            |           |                         |
|--------|-----------|------------------------|----------|------------|-----------|-------------------------|
| Level  |           | Declined Significantly | Declined | Maintained | Increased | Increased Significantly |
| Status | Very High | Yellow                 | Green    | Blue       | Blue      | Blue                    |
|        | High      | Orange                 | Yellow   | Green      | Green     | Blue                    |
|        | Medium    | Orange                 | Orange   | Yellow     | Green     | Green                   |
|        | Low       | Red                    | Orange   | Orange     | Yellow    | Yellow                  |
|        | Very Low  | Red                    | Red      | Red        | Orange    | Yellow                  |

# Do You Always Get a Performance Level (or Color)?

LEAs, schools, and student groups must have at least **30 or more** students in both the current and prior year to receive a performance level or color. **However**, the data used to determine the N size of “30 or more” varies by each state indicator.

Table 1 identifies the data used to determine the N size of “30 or more” for the state indicators as well as the College/Career Indicator and the Grade Eleven Distance from Level 3 Reports available under the Detailed Reports tab. Table 1 also identifies the data source.

### Less than 30 Students

LEAs, schools, and student groups with **less than 30 students** in the denominator in both the current and prior years will not receive a performance level. However, the Dashboard will display Status and Change data for numbers between 11 to 29. In these instances, a performance level (or color) will not be displayed, but LEAs and schools will be able to view the data. Data for **less than 11 students** will not be reported due to privacy reasons.

**Table 1**

| Indicator   | Data Used to Determine “30 or More”   | Data Source                     |
|---|---|---------------------------------|
| <b>Suspension Rate</b>  | Enrollment<br>(Cumulative enrollment or the total count of unique [unduplicated] primary, secondary, and short-term enrollments within the academic year.)  | CALPADS                         |
| <b>English Learner Progress</b>   | Annual CELDT* test takers   | CELDT* file from testing vendor |
| <b>Graduation Rate</b>  | All students in the four-year graduation cohort   | CALPADS                         |
| <b>Academic</b><br>(Grades 3 through 8 in English language arts/literacy [ELA] and mathematics) | All students who take the CASSPP in grades 3 through 8 who are continuously enrolled**<br>(Note: Students who take the California Alternate Assessment [CAA] are not included. Please see Appendix C for the complete inclusion and exclusion rules.) | CAASPP file from testing vendor |

\*CELDT: California English Language Development Test

\*\*Continuous enrollment is defined as enrollment from Fall Census Day (first Wednesday in October) to testing without a gap in enrollment of more than 30 consecutive calendar days.

# Accessing the California School Dashboard

The Dashboard can be accessed on the CDE **California Accountability Model** Web site at <http://www.cde.ca.gov/ta/ac/cm/index.asp>. The Dashboard contains four reports:

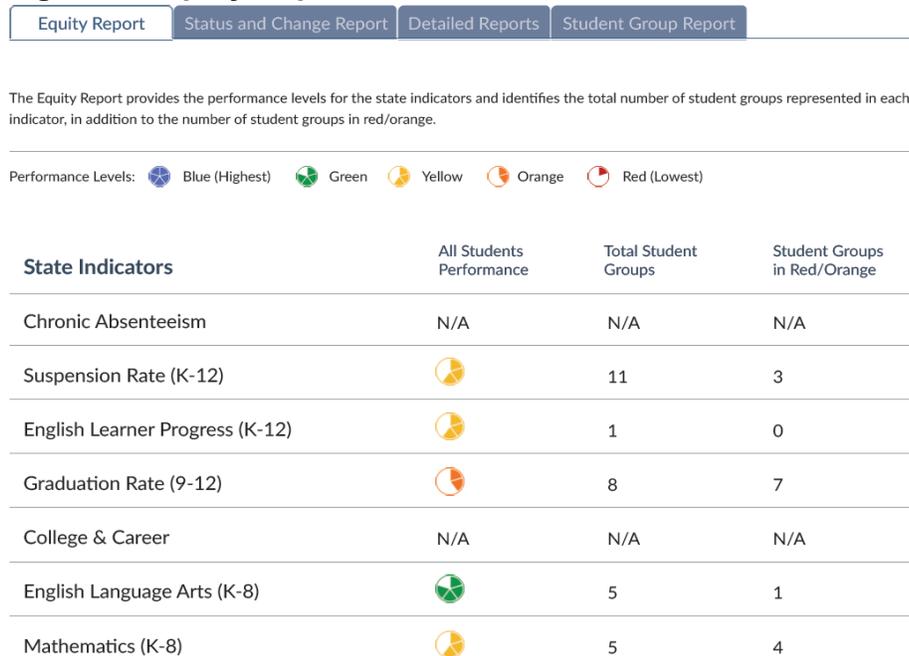

## 1. Equity Report

When a viewer first accesses the Dashboard, the first report they will see will be the Equity Report. (This report is the first report tab on the left.) This report provides results for the state and local indicators. The following information is reported for the *state* indicators:

- The overall performance level for all students (i.e., schoolwide or LEA-wide)
- The total number of student groups with significant enough numbers to receive a performance level (See section titled “Student Groups” for more information on numerical significance.)
- The total number of numerically significant student groups that received the two lowest performance levels (i.e., Orange and Red).

Example: In Figure 4 below, for the Suspension Rate Indicator, the overall performance level for all students is Yellow. Of the 11 numerically significant student groups, three of them had either an Orange or Red performance level. Note: The second half of this report displays the local indicator results, which are described in the next section below.

**Figure 4: Equity Report**

## 2. Status/Change Report

The third tab from the left is the Status/Change Report. This report provides results for the state indicators:

- The overall performance level for all students (i.e., schoolwide or LEA-wide)
- The data for Status, which was used to determine the Status level.
- The data for Change, which was used to determine the Change level.
- The performance levels (e.g., “Very High” in Status and “Declined” in Change)

Example: In Figure 5 below, for the Graduation Rate Indicator, the overall performance level for all students was Green. The Status was 86 percent; the Change was 5 percent. These percentages allow viewers access to the percentage points calculated and used to derive the performance level.

**Figure 5: Status/Change Report**

The status and change report provides the performance level for all students on all state indicators and identifies the status for the current year and change relative to the prior year for each state indicator.

Performance Levels: Blue (Highest) Green Yellow Orange Red (Lowest)

| State Indicators                | All Students Performance | Status                              | Change               |
|---------------------------------|--------------------------|-------------------------------------|----------------------|
| Chronic Absenteeism             | N/A                      | N/A                                 | N/A                  |
| Suspension Rate (K-12)          |                          | Very Low<br>0.5%                    | Declined<br>-1.1%    |
| English Learner Progress (K-12) |                          | Low<br>62%                          | Increased<br>+1.5%   |
| Graduation Rate (9-12)          |                          | Medium<br>86%                       | Increased<br>+5%     |
| College & Career                | N/A                      | N/A                                 | N/A                  |
| English Language Arts (K-8)     |                          | Low<br>60 points below level 3      | Declined<br>-10      |
| Mathematics (K-8)               |                          | Very Low<br>15 points above level 3 | Declined Sig.<br>-25 |

### 3. Detailed Reports

The Detailed Reports will contain data for the College/Career Indicator and the Grade Eleven Distance from Level 3 Report. These two reports are explained in detail in the section titled “Detailed Reports.” Please note that **only** Status and Change data **will be displayed** but performance levels (or colors) **will not be displayed**. LEAs, schools, and student groups will not receive a performance level for the College/Career Indicator and the Grade Eleven Distance from Level 3 Report for the spring 2017 release of the Dashboard.

### 4. Student Group Report

The Student Group Report displays the student group performance or performance levels (colors) for all of the state indicators.

## Local Indicators

The bottom of the Equity Report will contain data reported for local indicators (see Figure 6). These data are **uploaded into the Dashboard by the LEA**.

The LCFF statute requires that the new accountability system include standards for all LCFF priorities. The criteria established for state indicators include: (1) being valid and reliable measures, (2) having comparable, state-level data, and (3) the ability to disaggregate data by student groups. These criteria ensure a common and comparable way of measuring performance on the indicators across the state.

The state indicators apply to **all** LEAs, schools, student groups (e.g., race/ethnicity, socioeconomically disadvantaged, ELs, and students with disabilities [SWD]) and progress on the indicators is reported through the Dashboard.

However, there are several LCFF priority areas that do not meet the criteria established for state indicators. These remaining priority areas are considered local indicators and will require LEAs to determine whether they have *Met*, *Not Met*, or *Not Met for More than Two Years* the standards for each applicable local indicator. The local indicators **only** apply at the LEA level. LEAs will use the local indicators to evaluate and report their progress on priority areas. These local indicators will appear on the LEA Dashboard within the Equity Report.

For each local indicator on the Equity Report, LEAs must complete the following steps to meet the approved standards:

1. Measure their progress using locally available information,
2. Report the results to the LEA’s local governing board at a regularly scheduled meeting of the local governing board, and
3. Upload and publicly report the results through the Dashboard

LEAs measure progress by completing local self-reflection tools or the self-reflection tools provided by the Dashboard or from a menu of local measures, and report these results to local governing boards, stakeholders and members of the public. After the completion of the self-assessment/local measures options and reporting of progress, LEAs will use the *Met, Not Met, or Not Met for More than Two Years* criteria to assess its performance.

Appendix B identifies the self-reflection tools that have been approved by the SBE.

**Figure 6**

| Local Indicators                                       | Ratings                  |
|--|--------------------------|
| Basics (Teachers, Instructional Materials, Facilities) | Met                      |
| Implementation of Academic Standards                   | Not Met                  |
| Parent Engagement                                      | Not Met for<br>Two Years |
| Local Climate Survey                                   | Met                      |

# Student Groups

The Dashboard reports specific student groups as required in California *Education Code (EC)* Section 52052(a)(2). This section reviews when a student group will receive a performance level (or color), when the student group data will be reported (and when it will not), and the specific student group definition.

Student group data **will be reported** in the Dashboard if:

- There are **30 or more students** in the group for both the current and prior year. These groups **will receive** a performance level (or color) and the Status/Change data will also be displayed.
- There are **11 to 29 students** in the group. These groups **will not** receive a performance level (or color) on the Dashboard. However, the Status/Change data will be displayed.

Student group data **will not** be reported in the Dashboard if:

- A student group has **less than 11 students**. These student groups **will not receive** a performance level and their Status/Change data **will not** be displayed to protect the anonymity of the students.

The data source used to determine the number of students in each student group varies by each state indicator or local indicator reported by the CDE.

## English Learners

| State Indicator          | Definition   | Data Source   | Data Corrections for Data Used in Fall 2017 Dashboard   |
|--------------------------|--|---|---|
| Suspension Rate          | Students who are marked as EL at any time during the academic year.  | CALPADS: Discipline data submitted in the End-of-Year (EOY) 3 Submission. LEAs must certify data by the initial deadline and make corrections during the amendment window by the correction deadline. | 2015-16 Discipline Data<br>Initial Deadline:<br>July 1, 2017<br><br>Correction Deadline:<br>August 11, 2017   |
| English Learner Progress | Students who take the annual CELDT in the current year or students who were reclassified fluent English proficient (RFEP) in the prior year (i.e., July 1, 2013 to June 30, 2014). | CELDT data is from the testing vendor.<br><br>The RFEP data are extracted out of the CALPADS Operational Data Store (ODS) by the CDE.   | The 2016–17 CELDT correction window is from February 27–March 24, 2017.<br><br>The extraction date is still to be determined. LEAs and schools are advised to review their RFEP data in CALPADS and make any corrections in the CALPADS ODS prior to the extraction date. |

| State Indicator  | Definition  | Data Source  | Data Corrections for Data Used in Fall 2017 Dashboard   |
|--|---|--|---|
| Graduation Rate  | Students who are marked as EL at any time during the four-year cohort.  | CALPADS ODS: Submit by initial CALPADS Fall 1 certification deadline. Graduation data are extracted after initial Fall 1 deadline and LEAs are given a private preview of preliminary data and a correction opportunity. | 2015-16 Four-Year Graduation Cohort<br>Initial Deadline: December 16, 2016<br><br>Correction Deadline: February 17, 2017  |
| Academic: Grades 3-8 -and- Grade 11 Distance from Level 3 Report | Students who are marked as EL during the academic year, including students who were reclassified (or RFEP) within the past four years (i.e., reclassified <i>after</i> April 15, 2012). | The EL and RFEP data are extracted out of the CALPADS ODS by the CDE.  | The extraction date is still to be determined. LEAs and schools are advised to review their EL and RFEP data in CALPADS and make corrections in the CALPADS ODS prior to the extraction date. |

### English Learners Only

| State Indicator  | Definition  | Data Source  | Data Corrections for Data Used in Fall 2017 Dashboard  |
|--|---|--|--|
| Academic: Grades 3-8 -and- Grade 11 Distance from Level 3 Report | Students who are EL at any time during the academic year. | The EL data are extracted out of the CALPADS ODS by the CDE. | The extraction date is still to be determined. LEAs and schools are advised to review their EL data in CALPADS and make corrections in the CALPADS ODS prior to the extraction date. |

### Reclassified Fluent English Proficient Only

| State Indicator  | Definition  | Data Source  | Data Corrections for Data Used in Fall 2017 Dashboard  |
|--|---|--|--|
| Academic: Grades 3-8 -and- Grade 11 Distance from Level 3 Report | Students who were reclassified (or RFEP) within the last four years (i.e., reclassified <i>after</i> April 15, 2012). | The RFEP data are extracted out of the CALPADS ODS by the CDE. | The extraction date is still to be determined. LEAs and schools are advised to review their RFEP data in CALPADS and make corrections in the CALPADS ODS prior to the extraction date. |

### Foster Youth

These data will not be available until the 2017–18 Dashboard.

### Homeless

These data will not be available until the 2017–18 Dashboard.

## Socioeconomically Disadvantaged

Socioeconomically Disadvantaged (SED) students are defined the same for all state indicators:

- Students where both parents have not received a high school diploma  
- or -
- Students who were eligible for the Free and Reduced Meal Program (FRPM) (also known as the National School Lunch Program), or has a direct certification for free or reduced-price meals  
- or -
- Students who are migrant, homeless, or foster youth

Note that the English Learner Progress Indicator has only one student group (ELs) and therefore, an SED student group will not be reported in this indicator.

| Data Source  | Data Corrections for Data Used in Fall 2017 Dashboard   |
|--|---|
| Data for parent education level, FRPM, direction certification, migrant, homeless, and foster youth are extracted out of CALPADS by the CDE. | The CDE will extract these data on June 30 each year. LEAs and schools are advised to review their RFEP data in CALPADS and make corrections in the CALPADS ODS prior to the extraction date. |

## Students with Disabilities

| State Indicator          | Definition  | Data Source   | Data Corrections for Data Used in Fall 2017 Dashboard  |
|--------------------------|---|---|--|
| Suspension Rate          | Students who receive special education services at any time during the academic year.   | CALPADS: Discipline data submitted in the EOY 3 Submission. LEAs must certify data by the initial deadline and make corrections during the amendment window by the correction deadline.                             | 2015-16 Discipline Data<br>Initial Deadline:<br>July 1, 2017<br><br>Correction Deadline:<br>August 11, 2017                    |
| English Learner Progress | Note that the English Learner Progress Indicator has only one student group (ELs) and therefore, the Students with Disabilities (SWD) student group will not be reported in this indicator. |   |  |
| Graduation Rate          | Students who are marked as SWD at any time during the four-year cohort.   | CALPADS ODS: Submit by initial CALPADS Fall 1 certification deadline. These data are extracted after initial Fall 1 deadline and LEAs are given a private preview of preliminary data and a correction opportunity. | 2015-16 Four-Year Graduation Cohort<br>Initial Deadline:<br>December 16, 2016<br><br>Correction Deadline:<br>February 17, 2017 |

| State Indicator  | Definition   | Data Source   | Data Corrections for Data Used in Fall 2017 Dashboard  |
|--|--|---|--|
| Academic*:<br>Grades 3-8<br>-and-<br>Grade 11<br>Distance from<br>Level 3 Report | <ul style="list-style-type: none"> <li>Students who received special education services and have a primary disability code or take the CAA,</li> <li>-or-</li> <li>Students who were previously identified as special education but who are no longer receiving special education services for two years after exiting special education.</li> </ul> | <p>The CAA data are provided by the testing vendor.</p> <p>Primary disability codes and special education services are marked in CALPADS.</p> | <p>The CDE will extract these data on June 30 each year. LEAs and schools are advised to review their data in CALPADS and make any corrections in the CALPADS ODS prior to extraction.</p> |

\* A student with a disability, with a valid district of residence code in CALPADS and who is enrolled in a special education school or enrolled in a special education program (school code is identified as Non-Public School), is included in the district of residence accountability results.

## Race/Ethnicity

|  |
|--|
| <p>Race and ethnicity data are the same across all state indicators:</p> <ul style="list-style-type: none"> <li>Black or African American</li> <li>American Indian or Alaska Native</li> <li>Asian</li> <li>Filipino</li> <li>Hispanic or Latino</li> <li>Native Hawaiian or Pacific Islander</li> <li>White</li> <li>Two or More Races</li> </ul> |
|--|

| Data Source  | Data Corrections for Data Used in Fall 2017 Dashboard  |
|--|--|
| <p>The race/ethnicity data are extracted out of the CALPADS ODS by the CDE between mid-to-end of June each year. LEAs and schools are advised to review their data in CALPADS and make any corrections in the CALPADS ODS to reflect their student population.</p> | <p>LEAs and schools are advised to review their data in CALPADS and make any corrections in the CALPADS ODS prior to extraction.</p> |

# State Indicators

The Dashboard reports progress on state indicators, which will be used to support LEAs in identifying strengths, weaknesses, and areas that need improvement. Progress on state indicators will also be used to determine whether LEAs are eligible for assistance, and to assist the State Superintendent of Public Instruction (SSPI) in determining whether LEAs are eligible for more intensive state support/intervention. This section covers the calculation methods and data sources used for each of the state indicators reported in the Dashboard.

The statewide distributions used to set cut scores, the cut scores, and the five-by-five color tables for the state indicators can be accessed in Appendix A.

## Suspension Rate Indicator

### Who Receives this Indicator?

All LEAs and schools that have **30 or more students who are cumulatively enrolled<sup>1</sup>** in kindergarten through grade twelve in both the current and prior year will receive results for this indicator in their Dashboard.

### Data Source

The suspension data used for this indicator stems from data LEAs and schools upload into the CALPADS.

### Calculation Formula for Status

The suspension rate calculations for Status are based on the unduplicated number of students suspended within the academic year. For the initial release of the Dashboard, the 2014–15 suspension rates will be used for Status.

|   |
|---|
| <p><b>Suspension Rate Formula</b></p> <p>Number of Students Suspended</p> <p><b>divided by</b></p> <p>Cumulative Enrollment Multiplied by 100</p> |
|---|

### Calculation Formula for Change

The calculation for Change is:

$$\text{Status (2014–15 suspension rate) } \mathbf{minus} \text{ 2013–14 suspension rate}$$

<sup>1</sup> Cumulative enrollment is the total count of unique (unduplicated) primary, secondary, and short-term enrollments within the academic year.

---

### **Suspension Rate Rules:**

1. **“Multiple Suspensions for One Student”:** If a student is suspended multiple times (at the same school or district), the student is counted as being suspended only once.

- **Example 1:** Within one academic year, Student A was enrolled at three different schools within one LEA. In each school, Student A was suspended:
  - Five times at School 1,
  - Twice at School 2, and
  - Twice at School 3

In this instance, Student A would be counted as being suspended once in each of the three schools and only once in the LEA.

- **Example 2:** Within one academic year, Student A was enrolled in different schools within two separate LEAs. In each school, Student A was suspended:

**LEA 1:**

- Once at School 1, and
- Three times at School 2

**LEA 2:**

- Twice at School 3, and
- Twice at School 4

In this instance, Student A would be counted as being suspended once in each of the four schools (i.e., Schools 1 through 4) and once in each LEA (i.e., LEA 1 and LEA 2).

2. **“In-school” Suspensions:** CALPADS defines “in-house” or “in-school” suspension as a supervised in-school suspension classroom for students who are suspended and do not pose an imminent danger or threat or have not been recommended for expulsion. These students are captured in the numerator (or as “suspended”) in the calculation of the suspension rate.
3. **“Out-of-School” Suspensions:** These students are captured in the numerator (or as “suspended”) in the calculation of the suspension rate.

### **Cut Scores and Five-by-Five Color Table**

Unlike the Graduation Rate Indicator, which uses only LEA-level distributions to set the cut scores for Status and Change, the Suspension Rate Indicator uses LEA-level and school-level distributions. Multiple data simulations revealed that suspension data varies widely among LEA type (elementary, high, and unified) and school type (elementary, middle, and high).

For example, suspension rates were higher at the middle school level than the elementary school level. Therefore, multiple suspension cut scores were set for both LEAs and schools, based on their type. This resulted in six different sets of cut scores for Status and Change: (1) three sets based on LEA type distributions and (2) three sets based on school type distributions.

Having six different sets of cut scores also resulted in six different five-by-five color tables. See Appendix A for the statewide distributions used to set the cut scores and the five-by-five color tables for this indicator.

## Key Differences

- **Reverse Goal:** In addition to having multiple cut scores, an important key difference for this indicator is that the goal is reversed. For all other state indicators, the desired outcome and goal is to achieve a high percent in Status and Change. However, for the Suspension Rate Indicator, the desired outcome and goal is to have a low suspension rate and, thus, a low percent for Status and Change.
- **Charter Schools and Single School Districts**

Charter schools and single school districts will receive two reports: (1) an LEA report and (2) a school report because:

- Charter schools are treated as LEAs under the LCAP, and
- Single school districts are treated as schools under the ESSA

Since cut scores were set separately for LEAs and schools, the two reports could contain inconsistent performance level (or color) results. This would conflict with the goal of developing one integrated local-state-federal accountability system. As a result, the SBE approved holding charter schools and single school districts accountable for the suspension rate cut scores using the school-level cut scores. **Therefore, charter schools and single school districts will only be held accountable for their school-level performance level.**

- **Automatic Assignment of a Performance Level**

Because two years of data are necessary to determine Status and calculate Change, schools that did not certify (or submit) suspension (discipline) data in the CALPADS in the current or prior year are automatically assigned the Orange performance level for this indicator.

## Student Groups and Data Corrections

Please view the section titled “Student Groups” to access the student group definitions and data correction processes and deadlines for this indicator.

Examples of How an LEA, School, or Student Group Will Receive a Performance Level on the Suspension Rate Indicator

**Example 1  
Ruby Elementary School**

**Status**

Current 2014–15  
Suspension Rate

↓

4.0%

**Change**

Status *Minus* Prior Year Rate

- 2014–15 Suspension Rate: 4.0%
- 2013–14 Suspension Rate: 5.6%
- 4.0%–5.6%=–1.6%

↓

–1.6%

←      →

↓

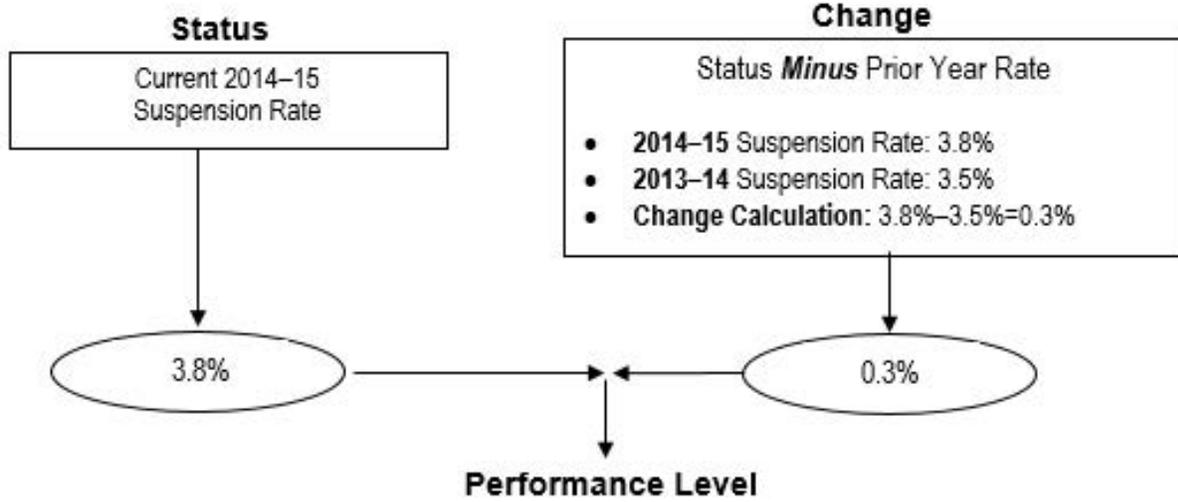

**Performance Level**

The school's performance level for the Suspension Rate Indicator will be determined using the **elementary school-level Status and Change cut scores** identified in Appendix A. Based on Ruby Elementary School's Status and Change results, 4.0% and -1.6% respectively, the school will receive a performance level of "Yellow." (The table below illustrates how the performance level was determined.) To receive a "Green" performance level in the following year (2017–18), the school will need to reduce their suspension rates to at least 3%. To maintain the "Yellow" performance level, the school will need to reduce their suspension rate by at least 0.3%.

**Suspension Indicator (Elementary School)**

|                          | Increased Significantly<br>by greater than 2.0% | Increased<br>by 0.3% to 2.0% | Maintained<br>Declined or increased by less than 0.3% | Declined<br>by 0.3% to less than 1.0% | Declined Significantly<br>by 1.0% or greater |        |
|--------------------------|---|------------------------------|---|---------------------------------------|--|--------|
| <b>Suspension Status</b> | Very Low<br>0.5% or less                        | N/A                          | Green   | Blue                                  | Blue   |        |
|                          | Low<br>Greater than 0.5% to 1.0%                | N/A                          | Yellow  | Green                                 | Blue   |        |
|                          | Medium<br>Greater than 1.0% to 3.0%             | Orange                       | Orange  | Yellow                                | Green  |        |
|                          | High<br>Greater than 3.0% to 6.0%               | Red                          | Orange  | Orange                                | Yellow                                       | Yellow |
|                          | Very High<br>Greater than 6.0%                  | Red                          | Red   | Red                                   | Orange                                       | Yellow |

**Example 2  
Emerald Unified School District**

The LEA’s performance level for the Suspension Rate Indicator will be determined using the **unified school district’s Status and Change cut scores** identified in Appendix A. Based on Emerald Unified School District’s Status and Change results, 3.8% and 0.3% respectively, the LEA will receive a performance level of “Orange.” (The table below illustrates how the performance level was determined.) To receive a “Green” performance level in the following year (2017–18), the school will need to reduce their suspension rates by *at least* 3.5%.

**Suspension Indicator (Unified School District)**

**Suspension Change**

| Level                               | Increased Significantly | Increased       | Maintained                              | Declined                  | Declined Significantly |
|-------------------------------------|-------------------------|-----------------|---|---------------------------|------------------------|
|                                     | by greater than 2.0%    | by 0.3% to 2.0% | Declined or increased by less than 0.3% | by 0.3% to less than 2.0% | by 2.0% or greater     |

| Very High<br>Greater than 8.0%      | Red                     | Red             | Red                                     | Orange                    | Yellow                 |

## English Learner Progress Indicator

### Who Receives this Indicator?

The English Learner Progress Indicator (ELPI) applies to LEAs and schools that have 30 or more annual CELDT test takers in both the current and prior years.

### Data Source

The ELPI determines ELs' progress towards English proficiency through the use of two data sources: (1) the CELDT and (2) reclassification data.

### *California English Language Development Test*

The CELDT results are obtained from the testing vendor. Currently, all students in kindergarten through grade twelve, who indicate they speak another language on the home language survey, are required to be tested within 30 days of enrollment. If the student is determined to be an EL, the student must take the CELDT annually until they are reclassified (or RFEP). The CELDT measures a student's ability to listen, speak, read, and write in English.

**All annual** CELDT test takers who have **two years of CELDT scores are included** in the calculation of the ELPI, including kindergarten students who are annual test takers. If a student participates in a transitional kindergarten program, the student is required to take the CELDT if he/she meets the criteria. If the student is identified as EL, they are required to be annually tested. Therefore, students participating in the transitional kindergarten program can be annual test takers in kindergarten.

The CELDT has five overall performance levels: Beginning, Early Intermediate, Intermediate, Early Advanced, and Advanced. Because there is a wide range of scale scores in the Intermediate performance level, stakeholders advised that the level be divided into two, **for accountability purposes only**, to measure progress in this level. In response to the feedback, the Intermediate performance level was divided into two (Intermediate and High Intermediate) through the use of scale scores for each grade.

#### *Splitting the Intermediate Level into Two*

To split the CELDT Intermediate performance level into two, the range of possible CELDT scale scores were divided in half **for each grade**. When the range was not evenly divisible, "High Intermediate" was given the greater range. For example:

- **Grades 10 through 12:** The range of possible scale scores for grades ten through twelve is 528 to 590 (62 point range). Dividing this range into two results in the following:
  - Intermediate: 528 to 558 (30 pts)
  - High Intermediate: 559-590 (31 pts)

Dividing the Intermediate performance level (**for accountability purposes only**) gives **six overall performance levels** for the CELDT:

1. Beginning
2. Early Intermediate
3. Intermediate
4. High Intermediate
5. Early Advanced
6. Advanced

ELs who advance at least one overall CELDT performance level from prior year to current year (e.g., Early Intermediate to Intermediate; High Intermediate to Advanced) will be included in the numerator of the ELPI calculation. ELs who performed Early Advanced/Advanced English Proficient in the prior year and scores Early Advanced/Advanced English Proficient in the current year will also be included in the numerator of the ELPI calculation.

### ***Reclassified English Learners***

ELs who were reclassified (or RFEP) in the prior year will also be included in the numerator and denominator of the ELPI calculation. The RFEP data are taken from the CALPADS.

Reclassified students who move from one school to the next, or one district to the next, are included in the ELPI calculation of the school or district that reclassified the students.

### **Calculation Formula for Status**

|   |
|---|
| <p><b>ELPI Calculation Formula for Status</b></p> <p>Annual CELDT Test Takers Who Increased at least 1 CELDT Level</p> <p style="text-align: center;"><b><i>plus</i></b></p> <p>Annual CELDT Test Takers Who Maintained Early Advanced/<br/>Advanced English Proficient on the CELDT</p> <p style="text-align: center;"><b><i>plus</i></b></p> <p>ELs Who Were Reclassified in the Prior Year</p> <p style="text-align: center;"><b>divided by</b></p> <p>Total Number of Annual CELDT Test Takers in the Current Year <b><i>plus</i></b><br/>ELs Who Were Reclassified in the Prior Year</p> |
|---|

### **Calculation Formula for Change**

The calculation formula for Change is:

$$\text{Current Year Status } \mathbf{minus} \text{ Prior Year Status}$$

## Cut Scores and Five-by-Five Color Tables

See Appendix A for the statewide distributions used to set the cut scores and the five-by-five color tables for this indicator.

Table 2 identifies the years of CELDT and reclassification data that will be used to calculate Status and Change for the initial release of the Dashboard:

**Table 2**

| Data                       | Status              | Prior Year Status Used to Calculate Change |
|----------------------------|---------------------|--|
| Annual CELDT Results       | 2013–14 and 2014–15 | 2012–13 and 2013–14                        |
| Reclassification (or RFEP) | 2013–14             | 2012–13                                    |

### Automatic Assignment of a Performance Level

Schools that did not test at least 50 percent of their EL population in the 2014–15 CELDT are automatically assigned an Orange performance level. Determination of the 50 percent is based on the EL demographic data reported for mathematics in the Smarter Balanced Assessment file from the testing vendor.

### Student Groups and Data Corrections

| English Learner Definition   |
|--|
| <p>Because 86.2% of schools have no significant, or only one significant race/ethnic student group within the EL group, student group data will not be reported for the ELPI. For example, student groups such as Asian ELs, Hispanic ELs, White ELs, etc. will not be reported within the ELPI.</p> <p>Therefore, the EL student group is the only group represented in the ELPI.</p> |

Please view the section titled “Student Groups” to access the data correction processes and deadlines for this indicator.

Examples of How an English Learner Student Group Will Receive a Performance Level on the ELPI

### Example 1: Gemstone High School

| Status   | Change   |
|--|--|
| <p><b>Step 1:</b><br/>Identify the number of annual CELDT test takers who advanced at least one performance level on the 2015 CELDT compared to the 2014 CELDT, including annual CELDT test takers who maintained scoring Early Advanced/Advanced English Proficient between the 2014 and 2015 CELDT: <b>100</b></p> <p><b>Step 2:</b><br/>Identify the number of 2015 annual CELDT test takers: <b>136</b></p> <p><b>Step 3:</b><br/>Calculate the percent: <math>100/136 = 73.5\%</math></p> <p><b>Step 4:</b><br/>Identify the total number of ELs who were reclassified in 2013–14: <b>22</b></p> <p><b>Calculate Status:</b> Add the number in Step 4 to both the numerator and denominator in Step 3:<br/> <math>(100+22)/(136+22) = 122/158 = 77.2\%</math></p> | <p style="text-align: center;">Difference in Status from Current Year to Prior Year</p> <ul style="list-style-type: none"> <li>• Current Year ELPI Status: <b>77.2%</b></li> <li>• Prior Year ELPI Status: <b>82.2%</b></li> </ul> <p><b>Calculate Change:</b> <math>77.2\% - 82.2\% = -5\%</math></p> |
| <div style="border: 1px solid black; border-radius: 50%; width: 60px; height: 40px; margin: 0 auto; display: flex; align-items: center; justify-content: center;">77.2%</div>  | <div style="border: 1px solid black; border-radius: 50%; width: 60px; height: 40px; margin: 0 auto; display: flex; align-items: center; justify-content: center;">-5%</div>  |
| <p><b>Performance Level</b></p>  |  |

Based on the school's Status and Change results, 77% and -5% respectively, the school's performance level for the ELPI will be "Yellow." (The table below illustrates how the performance level was determined.) To achieve a "Green" performance level next year (2017–18), the school will have to achieve an ELPI of 75.6% or more.

**English Learner Progress Performance Levels**

**English Learner Progress Change (Change in Percent Progressing and Reclassified)**

| English Learner Progress Status<br>(Percent Progressing Plus Reclassified) | English Learner Progress Change (Change in Percent Progressing and Reclassified) |                              |   |   |  |
|--|--|------------------------------|---|---|--|
|  | Declined Significantly<br>by greater than 10.0%                                  | Declined<br>by 1.5% to 10.0% | Maintained<br>Declined or increased by less than 1.5% | Increased<br>by 1.5% to less than 10.0% | Increased Significantly<br>by 10.0% or greater |
| Very High<br>85.0% or greater  | Yellow   | Green                        | Blue  | Blue                                    | Blue   |
| High<br>75.0% to less than 85.0%   | Orange   | Yellow                       | Green   | Green                                   | Blue   |
| Medium<br>67.0% to less than 75.0%   | Orange   | Orange                       | Yellow  | Green                                   | Green  |
| Low<br>60.0% to less than 67.0%  | Red  | Orange                       | Orange  | Yellow                                  | Yellow   |
| Very Low<br>Less than 60.0%  | Red  | Red                          | Red   | Orange                                  | Yellow   |

**Example 2  
Crystal Quartz High School District**

**Status**

**Step 1:**  
Identify the number of annual CELDT test takers who advanced at least one performance level on the 2015 CELDT compared to the 2014 CELDT, including annual CELDT test takers who maintained scoring Early Advanced/Advanced English Proficient between the 2014 and 2015 CELDT: **309**

**Step 2:**  
Identify the number of 2015 annual CELDT test takers: **448**

**Step 3:**  
Calculate the percent:  $309/448 = 69\%$

**Step 4:**  
Identify the total number of ELs who were reclassified in 2013–14: **36**

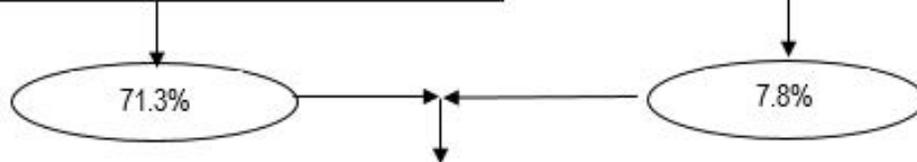

**Calculate Status:** Add the number in Step 4 to both the numerator and denominator in Step 3:  
 $(309+36)/(448+36) = 345/484 = 71.3\%$

**Change**

Difference in Status from Current Year to Prior Year

- Current Year ELPI Status: **71.3%**
- Prior Year ELPI Status: **63.5%**

**Calculate Change:**  $71.3\% - 63.5\% = 7.8\%$

**Performance Level**

Based on the LEA's Status and Change results, 71.3% and 7.8% respectively, the LEA's performance level for the ELPI will be "Green." (The table below illustrates how the performance level was determined.) To maintain the "Green" performance level for the following year (in 2017–18), the LEA must score at least 72.5% on the ELPI.

**English Learner Progress Performance Levels**

**English Learner Progress Change (Change in Percent Progressing and Reclassified)**

| English Learner Progress Status<br>(Percent Progressing Plus Reclassified) | Level                         | Declined Significantly<br>by greater than 10.0% | Declined<br>by 1.5% to 10.0% | Maintained<br>Declined or increased by less than 1.5% | Increased<br>by 1.5% to less than 10.0% | Increased Significantly<br>by 10.0% or greater |
|--|-------------------------------|---|------------------------------|---|---|--|
|  | Very High<br>85.0% or greater | Yellow  | Green                        | Blue  | Blue                                    | Blue   |
| High<br>75.0% to less than 85.0%   | Orange                        | Yellow  | Green                        | Green   | Blue                                    |  |
| Medium<br>67.0% to less than 75.0%   | Orange                        | Orange  | Yellow                       | Green   | Green                                   |  |
| Low<br>60.0% to less than 67.0%  | Red                           | Orange  | Orange                       | Yellow  | Yellow                                  |  |
| Very Low<br>Less than 60.0%  | Red                           | Red   | Red                          | Orange  | Yellow                                  |  |

## Future Changes

An ELPI Workgroup was established in September 2016 and has been charged with determining the feasibility of incorporating Long Term English Learner data into the ELPI. SBE Information Memorandums continue to report the Workgroup’s progress with a final presentation of the Workgroup recommendations scheduled for the May 2017 SBE meeting.

# Graduation Rate Indicator

## Who Receives this Indicator?

This indicator is based on the four-year cohort graduation rates and only applies to LEAs and schools that have 30 or more students in the four-year graduation cohort in both current and prior years. A graduation cohort is a group of high school students who could potentially graduate during a four-year time period (grades nine through twelve).

## Data Source

Graduation data are reported in the CALPADS by LEAs and schools.

## Calculation Formula for Status

- **Class of 2015** (2014–15 Graduation Cohort)

The formula to calculate the four-year graduation cohort is provided in Table 3:

**Table 3**

|  |
|--|
| <p><b>Class of 2015</b><br/> <b>Four-Year Cohort Graduation Rate Formula</b></p> <p style="text-align: center;">Number of students who earn a regular high school diploma<br/>                 by the end of 2014–15 cohort</p> <p style="text-align: center;"><b>divided by</b></p> <p style="text-align: center;">Number of first-time grade nine students in 2011–12 plus students who<br/>                 transfer in, minus students who transfer out, emigrate, or die during<br/>                 school years 2011–12, 2012–13, 2013–14, and 2014–15.</p> |
|--|

Note: Students who earn a Special Education Certificate of Completion or a general equivalency diploma are not counted as high school graduates but are included in the denominator.

- **Three-Year Weighted Average** (Class of 2012, 2013, and 2014)

The Graduation Rate Indicator is the only state indicator to use a three-year weighted average. This average is used to calculate Change and the formula is identified in Table 4:

**Table 4**

| <b>3-Year Weighted Average Formula</b>   |
|--|
| Class of 2012 Graduates + Class of 2013 Graduates +<br>Class of 2014 Graduates   |
| <b>divided by</b>  |
| Students in the 2011-12 Cohort (class of 2012) +<br>Students in the 2012-13 Cohort (class of 2013) +<br>Students in the 2013-14 Cohort (class of 2014) |

If an LEA, school, or student group does not have cohort data for the graduating class of 2012, 2013, and/or 2014, the weighted average is calculated using the one or two years of available cohort data.

### **Calculation Formula for Change**

The calculation formula for Change is:

Current Year Status *minus* Three-Year Weighted Average

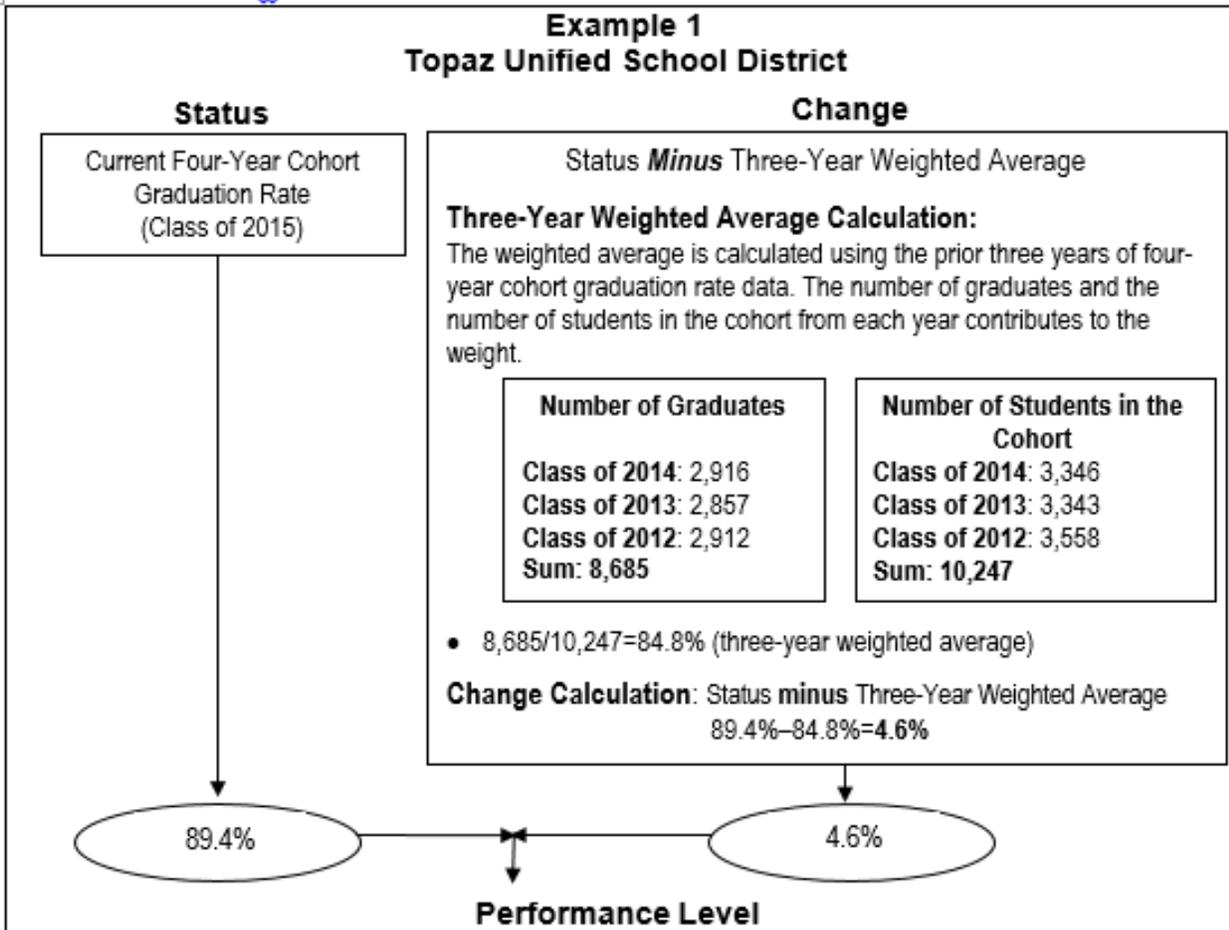

### **Cut Scores and Five-by-Five Color Tables**

See Appendix A for the statewide distributions used to set the cut scores and the five-by-five color tables for this indicator.

### **Student Groups and Data Corrections**

Please view the section titled “Student Groups” to access the student group definitions and data correction processes and deadlines for this indicator.

Examples of How an LEA, School, or Student Group Will Receive a Performance Level on the Graduation Rate Indicator

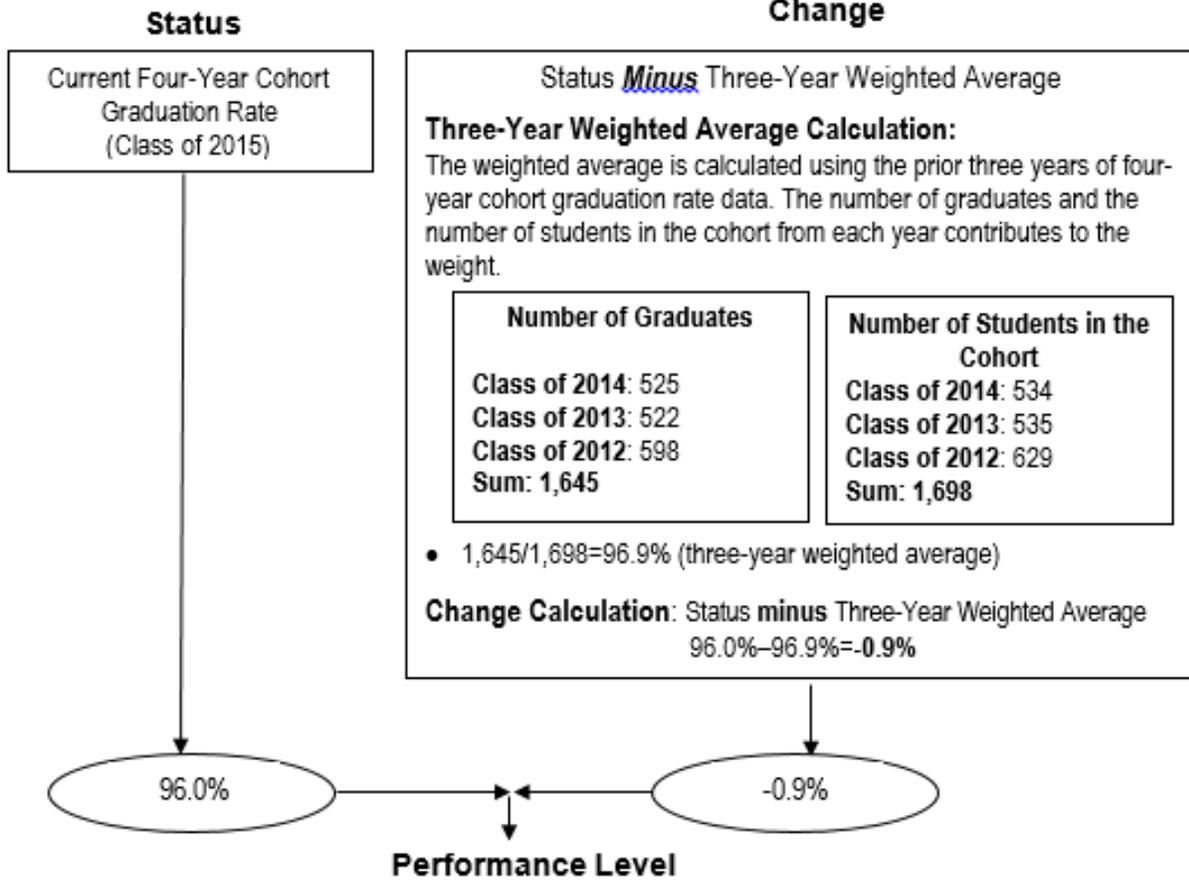

Based on the LEA's Status and Change results, 89.4% and 4.6% respectively, the LEA's performance level for the Graduation Rate Indicator will be "Green." (The table below illustrates how the performance level was determined.) To maintain the "Green" performance level for the following year (2017-18), the LEA must have a graduation rate of 90% (or greater) for the class of 2016 which will result in a Status of "High" and a Change of "Maintained" or "Increased."

**Graduation Performance Categories**  
**Graduation Change**

| Level                              | Graduation Change                              |                             |   |  |   |
|------------------------------------|--|-----------------------------|---|--|---|
|                                    | Declined Significantly<br>by greater than 5.0% | Declined<br>by 1.0% to 5.0% | Maintained<br>Declined or increased by less than 1.0% | Increased<br>by 1.0% to less than 5.0% | Increased Significantly<br>by 5.0% or greater |
| Very High<br>95.0% or greater      | N/A  | Blue                        | Blue  | Blue                                   | Blue  |
| High<br>90.0% to less than 95.0%   | Orange   | Yellow                      | Green   | Green                                  | Blue  |
| Medium<br>85.0% to less than 90.0% | Orange   | Orange                      | Yellow  | Green                                  | Green   |
| Low<br>67.0% to less than 85.0%    | Red  | Orange                      | Orange  | Yellow                                 | Yellow  |
| Very Low<br>Less than 67.0%        | Red  | Red                         | Red   | Red                                    | Red   |

### Example 2 Zircon High School

Based on the school's Status and Change results, 96.0% and -0.9% respectively, the school's performance level for the Graduation Rate Indicator will be "Blue." (The table below illustrates how the performance level was determined.) To maintain the "Blue" performance level for the following year (2017-18), the school must have a graduation rate of 95% (or greater) for the class of 2016 which will result in a Status of "Very High" and a Change of "Declined," "Maintained," or "Increased."

#### Graduation Performance Categories

|                   |                                    | Graduation Change                              |                             |   |  |   |
|-------------------|------------------------------------|--|-----------------------------|---|--|---|
| Level             |                                    | Declined Significantly<br>by greater than 5.0% | Declined<br>by 1.0% to 5.0% | Maintained<br>Declined or increased by less than 1.0% | Increased<br>by 1.0% to less than 5.0% | Increased Significantly<br>by 5.0% or greater |
| Graduation Status | Very High<br>95.0% or greater      | N/A  | Blue                        | Blue  | Blue                                   | Blue  |
|                   | High<br>90.0% to less than 95.0%   | Orange   | Yellow                      | Green   | Green                                  | Blue  |
|                   | Medium<br>85.0% to less than 90.0% | Orange   | Orange                      | Yellow  | Green                                  | Green   |
|                   | Low<br>80.0% to less than 85.0%    | Red  | Orange                      | Orange  | Yellow                                 | Yellow  |
|                   | Very Low<br>Less than 80.0%        | Red  | Red                         | Red   | Red                                    | Red   |

## Future Changes

The CDE is considering the incorporation of the five-year cohort graduation rate into this indicator as requested by the SBE. Based on the current SBE timeline, options for using these data in the new accountability system will occur during 2017–18 and implementation of the four- and five-year cohort graduation rates will occur in 2018–19.

## Academic Indicator (Grades 3–8): English Language Arts/Literacy and Mathematics

### Who Receives this Indicator?

The Academic Indicator is based on the California Assessment of Student Performance and Progress (CAASPP) ELA and mathematics results and applies to LEAs and schools with **grades three through eight**.

**Grade eleven** CAASPP results are not included in this indicator. At the July 2016 SBE meeting, the SBE approved moving the **grade eleven** assessment results from the Academic Indicator to the College/Career Indicator (CCI). Therefore:

- **High schools** serving students in grades nine through twelve **only will not receive** a performance level (or color) for the Academic Indicator. The grade eleven assessment results for these schools will be captured in the CCI.
- **High school LEAs** will also not receive a performance level for the Academic Indicator. The grade eleven assessment results for these districts will be captured in the CCI.
- **Unified school districts** will receive a performance level for the Academic Indicator derived from grades three through eight assessments. The grade eleven assessment results will be captured in the CCI.
- LEAs and schools that serve non-traditional grade spans such as **grades six through twelve** or **seven through twelve** will receive a performance level for the Academic Indicator derived from assessments administered between grades three and eight. The grade eleven assessment results will be captured in the CCI.

**However**, Grade Eleven Distance from Level 3 (DF3) results will be reported as additional reports within the Dashboard. Please see the section titled “Detailed Reports” for further information.

### Data Source

The CAASPP ELA and mathematics results (for grades three through eight) from the testing vendor will be used for this indicator.

### Distance from Level 3

The calculation for the Academic Indicator uses all available scale scores to provide a more precise measure of LEAs and schools' status and progress.

The DF3 methodology which measures how far (or the distance) each student is from the Level 3 (i.e., Standard Met) Smarter Balanced performance level. All the "distances" are then used to calculate the average distance for each LEA, school, or student group. Once all students' scores are compared to the fixed point on the scale (Level 3), the distance results would be averaged to produce LEA, school, and student group results. The results will show, on average, the needed improvement to bring the average student score to Level 3 or the extent to which the average student score exceeds Level 3.

Because the scale score ranges for each performance level *differs for each grade level*, it is important to compare each student's ELA and mathematics scores against the appropriate grade level "Level 3." For example:

- The grade five scale score range in mathematics is 2,219 to 2,700. Within this range are four distinct achievement levels. See Table 5.

**Table 5: Grade Five Scale Score Range for Mathematics**

| Achievement Levels | Level 1: Standard Not Met | Level 2: Standard Nearly Met | Level 3: Standard Met | Level 4: Standard Exceeded |
|--------------------|---------------------------|------------------------------|-----------------------|----------------------------|
| Scale Score Ranges | 2,219–2,454               | 2,455–2,527                  | <b>2,528–2,578</b>    | 2,579–2,700                |

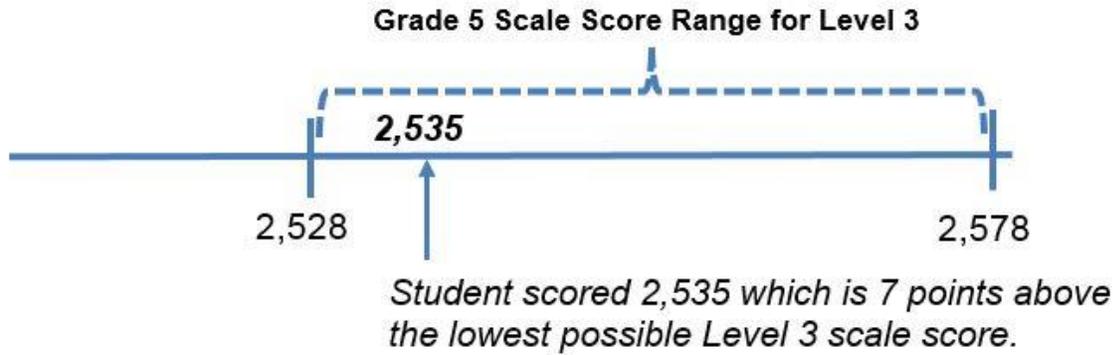

As noted in Table 5, the lowest scale score for Level 3 is 2,528. Each grade five mathematics assessment score is compared to 2,528, which will provide the "distance" from the lowest possible Level 3 score.

- If a student received a score of 2,505, that student would be 23 points below the lowest possible Level 3 scale score. The graphic below displays this example:

*Student scored 2,505 which is 23 points below the lowest possible Level 3 scale score.*

- If a student received a score of 2,535 that student would be 7 points above the lowest possible Level 3 scale score. The graphic below displays this example:

Smarter Balanced Summative Assessments scale score ranges for each grade (in ELA and mathematics) are available in Appendix D.

**No Scale Score**

For students who have a record in the CAASPP file but do not have a scale score result, they will be automatically assigned the minimum scale score or the lowest scale score for the Level 1 (Standard Not Met) for each grade level.

**Calculation Formula for Status (See Table 6)**

**Table 6**

|   |
|---|
| <p><b>Distance from Level 3 Formula*</b></p> <p>Sum of All <i>Grades 3 through 8</i> Students' Distance from Level 3 on the 2016 Smarter Balanced Summative Assessments</p> <p><b>divided by</b></p> <p>Total Number of 2016 <i>Grades 3 through 8</i> Smarter Balanced Summative Assessments Test Takers Who Are Continuously Enrolled**</p> |
|---|

\*Please view Appendix C for the complete business rules used to determine which students are included in the calculation formula.

\*\*Continuous enrollment is defined as enrollment from Fall Census Day (first Wednesday in October) to testing without a gap in enrollment of more than 30 consecutive calendar days.

**California Alternate Assessment**

The CAA will not be included in the Academic Indicator in the initial release. Beginning in the 2017–18 school year, there will be two years of available CAA data to include for Status and Change. At that point, the SBE will consider how the data should be used in the Academic Indicator.

**Calculation Formula for Change**

The calculation formula for Change is:

$$\text{Status (2016) } \mathit{minus} \text{ Prior Year Status (2015)}$$

---

## English Learners New to the Country, Parent Waivers, and Medical Emergency

ELs who have enrolled in a U.S. school for less than one year will **not be included** in the calculations for the **ELA and mathematics** indicator. *California Code of Regulations*, Title 5 (5 CCR) Section 850(l) and (u) exempts EL students, who were first enrolled in U.S. schools for less than a year before testing, from participating in the ELA assessments. Therefore, any EL student who first enrolled in a U.S. school **after April 15, 2015**, are not required to participate in the ELA computer adaptive test (CAT) and performance task (PT) of the Smarter Balanced Summative Assessments and will not be included in the calculations for the **ELA** indicator. In addition, even though all ELs, regardless of when they were first enrolled in U.S. schools, are required to take the mathematics assessments, ELs who first enrolled in a U.S. school *after* April 15, 2015, will also **not be included** in the **mathematics** indicator.

Students who do not take the assessments due to a parent waiver will **not be included** in the calculation for this indicator. However, these students **will be included** in the calculation of the participation rate (i.e., included in the denominator but excluded from the numerator). Students who do not take the assessments and are flagged with the medical emergency condition code on the CAASPP file from the testing vendor **will not be included** in the calculation for this indicator.

### Cut Scores and Five-by-Five Color Tables

See Appendix A for the statewide distributions used to set the cut scores and the five-by-five color tables for this indicator.

### Student Groups and Data Corrections

Please view the section titled “Student Groups” to access the student group definitions and data correction processes and deadlines for this indicator.

### ***English Learner Only and Reclassified Fluent English Proficient Only Student Groups***

Based on a decision by the SBE at their January 2017 meeting, the Academic Indicator is the *only* state indicator where the following two student groups will also be reported:

- **EL Only:** This student group will include ELs only, and
- **RFEP Only:** This student group will include reclassified (or RFEPs) only

Note that only Status and Change data will be displayed for these two student groups. A performance level (or color) will not be reported.

Examples of How an LEA, School, and Student Group Will Receive a Performance Level on the Academic Indicator

**Example 1: Blue Sapphire Elementary School (Kindergarten through Grade Five)**

| <b>Status</b>   | <b>Change</b>  |
|---|--|
| <p><b>Step 1:</b> Take all 2016 CAASPP test results in ELA and: (1) remove all records for ELs who were enrolled in a U.S. school for less than one year and (2) remove all records for students who are not continuously enrolled.</p> <p><b>Step 2:</b> Calculate the distance from Level 3 for each student by grade level</p> <ul style="list-style-type: none"> <li>• <b>Grade 3 Scale Score Range for Level 3:</b> 2,432 to 2,489<br/>Take each student's ELA scale score results and calculate the distance from 2,432. Example: Joe scored 2,430. The calculated distance is: 2,430 <i>minus</i> 2,432 = 2 points below Level 3.</li> <li>• <b>Grade 4 Scale Score Range for Level 3:</b> 2,473 to 2,532<br/>Take each student's ELA scale score results and calculate the distance from 2,473. Example: Jane scored 2,573. The calculated distance is: 2,573 <i>minus</i> 2,473 = 10 points above Level 3.</li> <li>• <b>Grade 5 Scale Score Range for Level 3:</b> 2,502 to 2,581<br/>Take each student's ELA scale score results and calculate the distance from 2,502. Example: Earl scored 2,532. The calculated distance is: 2,532 <i>minus</i> 2,502 = 30 points above Level 3.</li> </ul> <p><b>Step 3:</b> Add all of the distances calculated for each student in Step 2. Taking the distances calculated for Joe, Jane, and Earl above:<br/><math>(-2) + (10) + (30) = 38</math> points</p> <p><b>Calculate Status:</b> Take the total sum from Step 3 and divide by the total number of CAASPP ELA test takers. (This number was determined in Step 1.) Keeping with the examples for Joe, Jane, and Earl:<br/><math>38</math> points (Step 3) <b>divided by</b> 3 (Step 1) = <b>12.7 points</b><br/>The school's average is 12.7 points above Level 3.</p> | <p>Current Year Status: <b>12.7 points</b></p> <p>Prior Year Status: <b>8.7 points</b></p> <p><b>Change Calculation:</b><br/><b>Difference</b> Between Current Year Status to Prior Year Status:<br/><math>12.7</math> <i>minus</i> <math>8.7 = 4</math> points<br/><b>Increased by 4 points</b></p> |
| <div style="border: 1px solid black; border-radius: 50%; width: 100px; height: 100px; display: flex; align-items: center; justify-content: center; margin: 0 auto;"> <p style="margin: 0;"><b>12.7 points</b></p> </div>  | <div style="border: 1px solid black; border-radius: 50%; width: 100px; height: 100px; display: flex; align-items: center; justify-content: center; margin: 0 auto;"> <p style="margin: 0;"><b>4 points</b></p> </div>  |
| <p><b>Performance Level</b></p>   |  |

Based on the school's Status and Change results, 12.7 points and 4 points respectively, the school's performance level for the Academic Indicator will be "Blue." (The table below illustrates how the performance level was determined.)

**Change in Average Distance from Level 3**

| Level   | Declined Significantly | Declined          | Maintained   | Increased                   | Increased Significantly |
|---|------------------------|-------------------|--|-----------------------------|-------------------------|
|   | by more than 15 points | by 1 to 15 Points | Declined by less than 1 point or increased by less than 7 points | by 7 to less than 20 points | by 20 points or more    |
| Very High<br>45 or more points above                  | Yellow                 | Green             | Blue   | Blue                        | Blue                    |
| High<br>10 points above to less than 45 points above  | Orange                 | Yellow            | Green  | Green                       | Blue                    |
| Medium<br>5 points below to less than 10 points above | Orange                 | Orange            | Yellow   | Green                       | Green                   |
| Low<br>More than 5 points below to 70 points below    | Red                    | Orange            | Yellow   | Yellow                      | Yellow                  |
| Very Low<br>More than 70 points below                 | Red                    | Red               | Red  | Orange                      | Yellow                  |

**Example 2: Coral School (Grades Six through Twelve)**

**Status**

**Step 1:** Take all 2016 CAASPP test results in mathematics and remove all records for students who are not continuously enrolled.

**Step 2:** Calculate the distance from Level 3 for each student by grade level

- **Grade 6 Scale Score Range for Level 3:** 2,552 to 2,609  
Take each student's mathematics scale score results and calculate the distance from 2,552. Example: Mary scored 2,522. The calculated distance is: 2,552 minus 2,522 = 30 points below Level 3.
- **Grade 7 Scale Score Range for Level 3:** 2,567 to 2,634  
Take each student's mathematics scale score results and calculate the distance from 2,567. Example: Minnie scored 2,557. The calculated distance is: 2,567 minus 2,557 = 10 points below Level 3.
- **Grade 8 Scale Score Range for Level 3:** 2,586 to 2,652  
Take each student's mathematics scale score results and calculate the distance from 2,586. Example: Mickey scored 2,596. The calculated distance is: 2,596 minus 2586 = 10 points above Level 3.
- **Grade 11** is not included in this indicator but will be used in the College/Career Indicator and the Grade 11 Distance from Level 3 Report.

**Step 3:** Add all of the distances calculated for each student in Step 2. Taking the distances calculated for Mary, Minnie, and Mickey above:

$$(-30) + (-10) + (10) = -30 \text{ points}$$

**Calculate Status:** Take the total sum from Step 3 and divide by the total number of CAASPP ELA test takers. (This number was determined in Step 1.) Keeping with the examples for Mary, Minnie, and Mickey:

$$-30 \text{ points (Step 3) divided by 3 (Step 1) = -10 points}$$

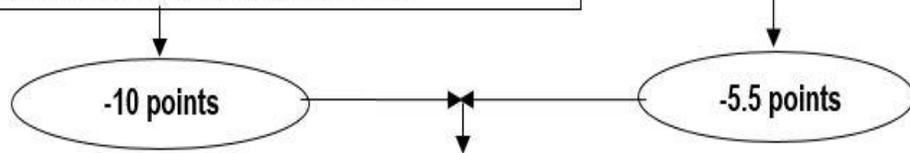

The school's average is 10 points below Level 3.

**Change**

Current Year Status: **-10 points**

Prior Year Status: **-4.5 points**

**Change Calculation:**  
**Difference** Between Current Year Status to Prior Year Status:  
 $(-10) \text{ minus } (-4.5) = -5.5 \text{ points}$   
**Declined by 5.5 points**

**Performance Level**

Based on the school's Status and Change results, -10 points and -5.5 points respectively, the school's performance level for the Academic Indicator will be "Orange." (The table below illustrates how the performance level was determined.)

|                               |   | Average Distance from Level 3                    |                               |  |  |   |
|-------------------------------|---|--|-------------------------------|--|--|---|
| Level                         |   | Declined Significantly<br>by more than 10 points | Declined<br>by 1 to 10 Points | Maintained<br>Declined by less than 1 point or increased by less than 5 points | Increased<br>by 5 to less than 15 points | Increased Significantly<br>by 15 points or more |
| Average Distance from Level 3 | Very High<br>35 or more points above                  | Yellow   | Green                         | Blue   | Blue                                     | Blue  |
|                               | High<br>5 points below to less than 35 points above   | Orange   | Yellow                        | Green  | Green                                    | Blue  |
|                               | Medium<br>More than 5 points below to 25 points below | Orange   | Orange                        | Yellow   | Green                                    | Green   |
|                               | Low<br>More than 25 points below to 95 points below   | Red  | Orange                        | Yellow   | Yellow                                   | Yellow  |
|                               | Very Low<br>More than 95 points below                 | Red  | Red                           | Red  | Orange                                   | Yellow  |

**Future Changes**

At the January 2017 SBE meeting, the CDE began the conversation regarding exploring the development of a student-level growth model methodology. This conversation will continue through the 2017–18 school year. If a student-level growth model is adopted, it will be used to determine the Change in the California Model in future years.

# Detailed Reports

This section covers the College/Career Indicator (CCI) and the Grade 11 Distance from Level 3 Reports which will be available in the Detailed Reports tab within the Dashboard. The data for these two reports will be **uploaded by the CDE**.

## College/Career Indicator

### Who Receives this Indicator?

The CCI applies to LEAs, schools, and student groups that have 30 or more students in the 2013–14 four-year graduation cohort (class of 2014).

### Local Indicator this Year, but State Indicator in 2017–18

For the initial release of the Dashboard, the CCI will be reported as a local indicator and will display one year of data (Status) only. The CDE will provide data on the percent of students who are prepared, approaching prepared, and not prepared for postsecondary. When the Dashboard is released in fall 2017, the CCI will be reported as a state indicator, and only the Status level will be reported. The first time both Status and Change will be reported, and when LEAs, schools, and student groups will receive a performance level (or color), is in fall 2018.

### Data Sources

This indicator includes various measures that evaluate a student’s preparedness for college or career. Table 7 identifies the measures and the data sources used.

**Table 7**

| CCI Measure  | Data Source  | Data Corrections  |
|--|--|---|
| <ul style="list-style-type: none"> <li>Grade 11 CAASPP in ELA and Mathematics<br/>Note: The CCI does not include students who take the CAA.</li> </ul>   | Testing Vendor   | None  |
| <ul style="list-style-type: none"> <li>Career Technical Education (CTE) Pathway Completion with a grade C or better in the capstone course</li> </ul>  | Data are extracted out of the CALPADS ODS by the CDE between mid-to-end of June each year. | LEAs and schools are advised to review their data in CALPADS and make any corrections in the CALPADS ODS prior to extraction. |
| <ul style="list-style-type: none"> <li>Advanced Placement (AP) Exams</li> </ul>  | The College Board  | None  |
| <ul style="list-style-type: none"> <li>International Baccalaureate (IB) Exams</li> </ul>   | The IB   | None  |
| <ul style="list-style-type: none"> <li>Dual Enrollment<br/>Students who earn college credit by passing the college course with a grade of C- or better are included. Counted courses may be in either academic disciplines (e.g., English) or CTE disciplines (e.g., welding). For purposes of the CCI, physical education courses will not be counted.</li> </ul> | Data are extracted out of the CALPADS ODS by the CDE between mid-to-end of June each year. | LEAs and schools are advised to review their data in CALPADS and make any corrections in the CALPADS ODS prior to extraction. |

| CCI Measure  | Data Source  | Data Corrections  |
|--|--|---|
| <ul style="list-style-type: none"> <li>a-g Completion with a grade C or better in all courses</li> </ul> | Data are extracted out of the CALPADS ODS by the CDE between mid-to-end of June each year. | LEAs and schools are advised to review their data in CALPADS and make any corrections in the CALPADS ODS prior to extraction. |

The SBE-approved CCI Model will be used to place students in one of the following CCI performance levels:

- Prepared
- Approaching Prepared
- Not Prepared

A student’s placement in one of the three performance levels is based on the highest benchmark that they attained. These benchmarks are identified in the CCI Model referenced in both Tables 8 and 9. **Please note that Tables 8 and 9 contain the same benchmarks and the only difference is how the CCI Model is displayed.** Table 8 is in a table format and is more descriptive. Table 9 is in a graphic format to display, at-a-glance, the various benchmark options available in each of the three performance levels.

| Examples of How a Graduate is Placed in One of Three CCI Performance Levels*   |
|--|
| <ul style="list-style-type: none"> <li><i>Example 1:</i> A <b>graduate</b> earns a Level 3 or above (i.e., Standard Met or Standards Exceeded) on the Smarter Balanced Summative Assessments in <i>both</i> ELA and mathematics, but does not meet any other criteria (e.g., complete a-g requirements, complete CTE Pathway, etc.). Referencing the CCI Model, this graduate will be placed in the “Prepared” performance level.</li> </ul> |
| <ul style="list-style-type: none"> <li><i>Example 2:</i> A <b>graduate</b> completes a-g requirements (with a C grade or better) and does not meet any other criteria in the CCI Model. Referencing the CCI Model, this graduate will be placed in the “Approaching Prepared” performance level.</li> </ul>  |
| <ul style="list-style-type: none"> <li><i>Example 3:</i> A <b>graduate</b> completes a CTE Pathway <b>and</b> earns a Level 3 or above (i.e., Standard Met or Standards Exceeded) on the Smarter Balanced Summative Assessments in ELA <i>and</i> at least a Level 2 on the Smarter Balanced Summative Assessments in mathematics. Referencing the CCI Model, this graduate will be placed in the “Prepared” performance level.</li> </ul>   |
| <ul style="list-style-type: none"> <li><i>Example 4:</i> A <b>non-graduate</b> completes a CTE pathway. Although the student completed the pathway and met the “Approaching Prepared” benchmark in the CCI Model, because this student did not graduate, this student will be placed in the “Not Prepared” performance level.</li> </ul>   |

\*To access the benchmarks and criteria in the CCI Model, please refer to either Table 8 (table format) or Table 9 (graphic format).

**Table 8: College/Career Indicator Model in Table Format**

All students in the four-year graduation cohort minus students who take the California Alternate Assessment.

|   |
|---|
| <b>WELL PREPARED – To Be Determined</b>   |
| The CCI measures for “Well Prepared” will be determined following further review of potential state and local CCI measures as statewide data becomes available. <sup>1</sup> California Department of Education staff, with input from education researchers, practitioners, and stakeholders, will evaluate the CCI model through the first phase of the Local Control Funding Formula evaluation rubrics and will propose a revised CCI model for implementation in 2017–18.  |
| <b>PREPARED</b><br><b>Does the graduate meet at least 1 measure below?</b>  |
| High School Diploma and any one of the following:<br>A. Career Technical Education (CTE) Pathway Completion <b>plus one</b> of the following criteria:<br><ul style="list-style-type: none"> <li>- Smarter Balanced Summative Assessments: At least a Level 3 “Standard Met” on ELA or Mathematics and at least a Level 2 “Standard Nearly Met” in the other subject area</li> <li>- One semester/two quarters of Dual Enrollment with passing grade (Academic/CTE subjects)</li> </ul> B. At least a Level 3 “Standard Met” on both ELA and Mathematics on Smarter Balanced Summative Assessments<br>C. Completion of two semesters/three quarters of Dual Enrollment with a passing grade (Academic and/or CTE subjects)<br>D. Passing Score on two Advanced Placement (AP) Exams or two International Baccalaureate (IB) Exams<br>E. Completion of courses that meet the University of California (UC) a-g criteria <b>plus one</b> of the following criteria:<br><ul style="list-style-type: none"> <li>- CTE Pathway completion</li> <li>- Smarter Balanced Summative Assessments: At least a Level 3 “Standard Met” on ELA or Mathematics and at least a Level 2 “Standard Nearly Met” in the other subject area</li> <li>- One semester/two quarters of Dual Enrollment with passing grade (Academic/CTE subjects)</li> <li>- Passing score on one AP Exam <b>OR</b> on one IB Exam</li> </ul> |
| <b>APPROACHING PREPARED</b><br><b>Does the graduate meet at least 1 measure below?</b>  |
| High School Diploma and any one of the following:<br>A. CTE Pathway completion<br>B. Scored at least Level 2 “Standard Nearly Met” on one or both ELA and Mathematics Smarter Balanced Summative Assessments<br>C. Completion of one semester/two quarters of Dual Enrollment with passing grade (Academic/CTE subjects)<br>D. Completion of courses that meet the UC a-g criteria  |
| <b>NOT PREPARED</b><br><b>Student did not meet any measures above or did not graduate, so considered NOT PREPARED</b>   |

<sup>1</sup>Future Local and State CCI Measures

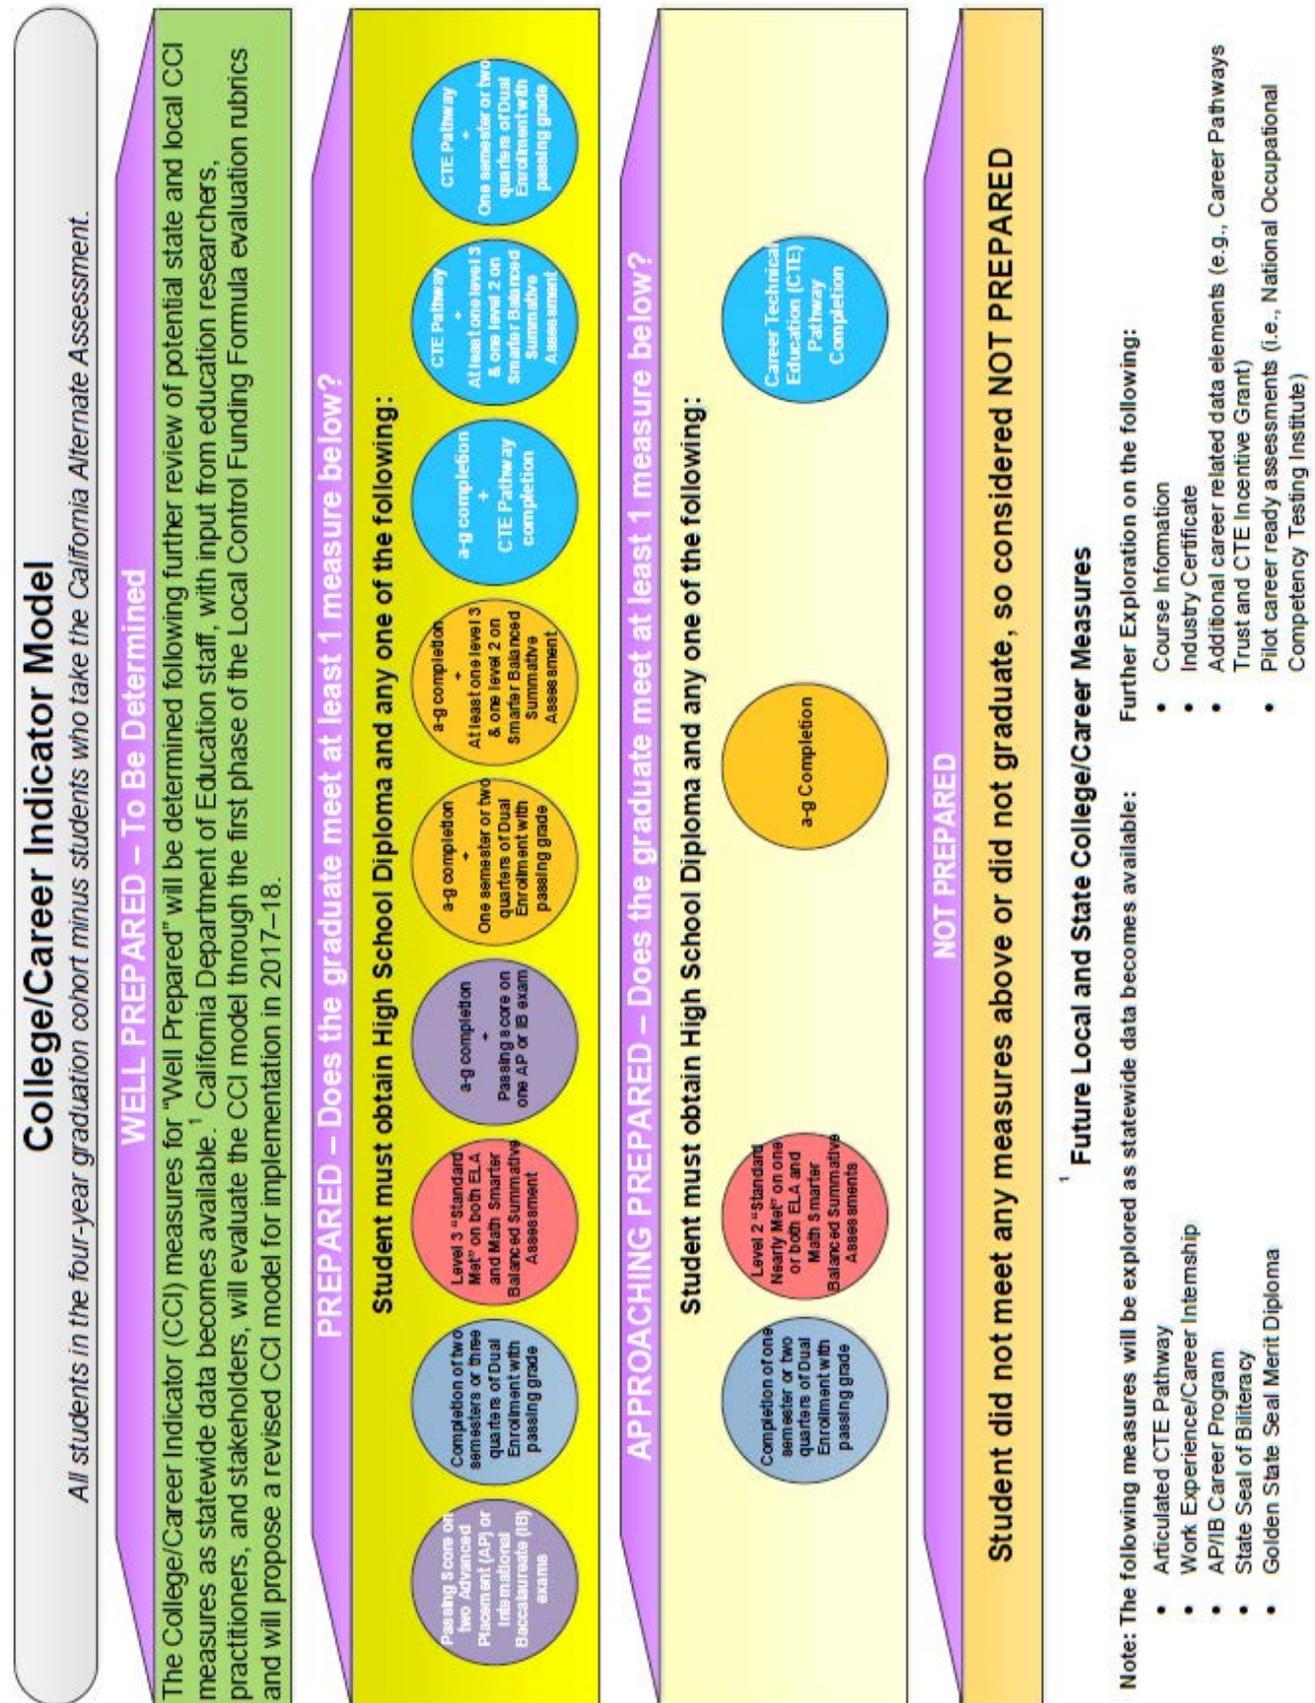

**Note: The following measures will be explored as statewide data becomes available:**

- Articulated CTE Pathway
- Work Experience/Career Internship
- AP/IB Career Program
- State Seal of Biliteracy
- Golden State Seal Merit Diploma

**Further Exploration on the following:**

- Course Information
- Industry Certificate
- Additional career related data elements (e.g., Career Pathways Trust and CTE Incentive Grant)
- Pilot career ready assessments (i.e., National Occupational Competency Testing Institute)

**Table 9: College/Career Indicator Model in Graphic Format**

**Calculation Formula**

|   |
|---|
| <p><b>CCI Formula for “Prepared”</b></p> <p>Class of 2014 Graduates Who Meet the “Prepared” Benchmark</p> <p><b>divided by</b></p> <p>Class of 2014 Graduation Cohort Minus Students Who Take the CAA</p>   |
| <p><b>CCI Formula for “Approaching Prepared”</b></p> <p>Class of 2014 Graduates Who Meet the “Approaching Prepared” Benchmark</p> <p><b>divided by</b></p> <p>Class of 2014 Graduation Cohort Minus Students Who Take the CAA</p>   |
| <p><b>CCI Formula for “Not Prepared”</b></p> <p>Class of 2014 Graduates Who Did Not Meet either the “Prepared” or “Approaching Prepared” Benchmarks <i>plus</i> Non-Graduates</p> <p><b>divided by</b></p> <p>Class of 2014 Graduation Cohort Minus Students Who Take the CAA</p> |

**Status Only Data Displayed on the Dashboard**

For the initial release of the Dashboard, the following CCI data will be displayed:

- Percentage of students who met the “Prepared” benchmark
- Percentage of students who met the “Approaching Prepared” benchmark
- Percentage of students who were “Not Prepared”

Because only one year of data (Status) are being used for the CCI, LEAs, schools, and student groups **will not receive a performance level (or color)** for this indicator. The Status data are being displayed for informational purposes only. However, the SBE has approved Status cut scores (see Table 10) for the percentage of students who met the “Prepared” benchmark. Therefore, LEAs and schools can take their percentage of students who met the “Prepared” benchmark and compare it against the approved cut scores to identify their Status level.

**Table 10**

| Status Level | Status Cut Score   |
|--------------|--|
| Very Low     | Percentage of “Prepared” students is less than 10%.        |
| Low          | Percentage of “Prepared” students is 10% to less than 25%. |
| Medium       | Percentage of “Prepared” students is 25% to less than 45%. |
| High         | Percentage of “Prepared” students is 45% to less than 60%. |
| Very High    | Percentage of “Prepared” students is 60% or greater.       |

**Future Changes**

The CDE, with input from education researchers, practitioners, and stakeholders, will evaluate the CCI Model through the first phase of the Dashboard and will continue to explore and review future CCI data (noted at the bottom of Tables 8 and 9) as it becomes available statewide at the student level.

**Grade Eleven Distance from Level 3:  
English Language Arts/Literacy and Mathematics**

**Who Receives this Indicator?**

As noted in earlier sections, the grade eleven CAASPP ELA and mathematics results are **not** included in the Academic Indicator, but **included** in the CCI. However, the grade eleven results will also be provided within the local indicators sections using the Academic Indicator methodology of “Distance from Level 3” or DF3. Therefore, any LEA or school that has grade eleven CAASPP results in ELA and mathematics in grade eleven will receive information on this indicator.

Please note that although Status and Change results will be displayed on the Dashboard, LEAs, schools, and student groups **will not** receive a performance level (or color).

**Data Source**

The grade eleven CAASPP ELA and mathematics results from the testing vendor will be used for this indicator.

**Distance from Level 3**

The calculation methodology used for this indicator is the same methodology used for the Academic Indicator for grades three through eight. The methodology is based on DF3, which measures how far (or the distance) each student is from Level 3 (i.e., Standard Met) Smarter Balanced performance level. All the “distances” are then used to calculate the average distance for each school or LEA. Once all student scores are compared to the fixed point on the scale (i.e., Level 3), the distance results would be averaged to produce a school-level average scale score and an average scale score for each student group. The results will show, on average, the needed improvement to bring the average student score to Level 3 or the extent to which the average student score exceeds Level 3.

Because the scale score ranges for each performance level *differs for each grade level*, it is important to compare each grade eleven student’s ELA and mathematics scores against the appropriate grade eleven “Level 3” scale score range. For example:

- The grade eleven scale score range in ELA is 2,299 to 2,795. Within this range are four distinct achievement levels which are identified in Table 11.

**Table 11: Grade Eleven Scale Score Range for ELA**

| Achievement Levels | Level 1: Standard Not Met | Level 2: Standard Nearly Met | Level 3: Standard Met | Level 4: Standard Exceeded |
|--------------------|---------------------------|------------------------------|-----------------------|----------------------------|
| Scale Score Ranges | 2,299–2,492               | 2,493–2,582                  | 2,583–2,681           | 2,682–2,795                |

As noted in Table 11, the lowest scale score for Level 3 is 2,583. Each grade eleven ELA assessment score is compared to 2,583, which will provide the “distance” from the lowest possible Level 3 score.

- If a student received a score of 2,500, that student would be 83 points below Level 3.
- If a student received a score of 2,593 that student would be 10 points above Level 3.

Smarter Balanced Summative Assessments scale score ranges for each grade (in ELA and mathematics) are available in Appendix D.

### **No Scale Score**

Records in the CAASPP file that do not have a scale score result will be automatically assigned the minimum scale score or the lowest scale score for the Level 1 (Standard Not Met) for each grade level.

### **Calculation Formula for Status**

**Distance from Level 3 Formula\***

Sum of All *Grade 11* Students' Distance from Level 3 on the 2016 CAASPP

**divided by**

Total Number of 2016 *Grade 11* CAASPP Test Takers  
Who Are Continuously Enrolled\*\*

\*Please view Appendix C for the complete business rules used to determine which students are included in the calculation formula.

\*\*Continuous enrollment is defined as enrollment from Fall Census Day (first Wednesday in October) to testing without a gap in enrollment of more than 30 consecutive calendar days.

### **California Alternate Assessment**

The CAA will not be included in the Academic Indicator in the initial release. Beginning in the 2017–18 school year, there will be two years of available CAA data to include for Status and Change and for consideration in the Academic Indicator by the SBE.

### **English Learners New to the Country, Parent Waivers, and Medical Emergency**

ELs who have enrolled in a U.S. school for less than one year will **not be included** in the calculations for the **ELA and mathematics** indicator. 5 CCR Section 850(l) and (u) exempts EL students, who were first enrolled in U.S. schools for less than a year before testing, from participating in the ELA assessments. Therefore, any EL student who first enrolled in a U.S. school **after April 15, 2015**, are not required to participate in the ELA CAT and PT of the Smarter Balanced Summative Assessments and will not be included in

---

the calculations for the **ELA** indicator. In addition, even though all ELs, regardless of when they were first enrolled in U.S. schools, are required to take the mathematics assessments, ELs who first enrolled in a U.S. school *after* April 15, 2015, will also **not be included** in the **mathematics** indicator.

Students who do not take the assessments due to a parent waiver **will not be included** in the calculation for this indicator. However, these students **will be included** in the calculation of the participation rate (i.e., included in the denominator but excluded from the numerator). Students who do not take the assessments and are flagged with the medical emergency condition code on the CAASPP file from the testing vendor **will not be included** in the calculation for this indicator.

### Calculation Formula for Change

The calculation formula for Change is:

Current Year Status (2016) *minus* Prior Year Status (2015)

### Performance Level (or Color)

For this indicator, the Status and Change data will be displayed, but the performance level (or color) will not be reported.

### Student Groups and Data Corrections

Please view the section titled “Student Groups” to access the student group definitions and data correction processes and deadlines for this indicator.

### ***English Learners Only and Reclassified Fluent English Proficient Only Student Groups***

Similar to the Academic Indicator, the Grade 11 DF3 will report the following two additional student groups:

- **EL Only:** This student group will include ELs only, and
- **RFEP Only:** This student group will include reclassified (or RFEPs) only

Note that only Status and Change data will be displayed for these two student groups. A performance level (or color) will not be reported.

**Examples of How an LEA, School, or Student Group Will Receive Status and Change on the Grade Eleven Distance from Level 3 Report**

**Example 1**  
**Lilac High School** (Grades Nine through Twelve)

| Status  | Change   |
|---|--|
| <p><b>Step 1:</b> Take all grade eleven 2016 CAASPP test results in ELA and: (1) remove all records for ELs who were enrolled in a U.S. school for less than one year and (2) remove all records for students who are not continuously enrolled.</p> <p><b>Step 2:</b> Calculate the distance from Level 3 for each student</p> <ul style="list-style-type: none"> <li>• <b>Grade 11 Scale Score Range for Level 3:</b> 2,583 to 2,681</li> </ul> <p>Take each student's ELA score results and calculate the distance from 2,583.</p> <p>Example: John scored 2,590. The calculated distance is:<br/>2,590 <i>minus</i> 2,583 = 7 points above Level 3.</p> <p>Example: Virginia scored 2,580. The calculated distance is:<br/>2,580 <i>minus</i> 2,583 = 3 points below Level 3.</p> <p><b>Step 3:</b> Add all of the distances calculated for each student in Step 2. Taking the distances calculated for John and Virginia above:<br/><math>(+7) + (-3) = 4</math> points</p> <p><b>Calculate Status:</b> Take the total sum from Step 3 and divide by the total number of CAASPP ELA test takers. (This number was determined in Step 1.) Keeping with the examples for John and Virginia:<br/>4 points (Step 3) <i>divided by</i> 2 (Step 1) = +2 points<br/>The school's average is 2 points above Level 3.</p> | <p>Current Year Status: <b>2 points</b></p> <p>Prior Year Status: <b>-1 points</b></p> <p><b>Change Calculation:</b><br/><i>Difference Between</i> Current Year Status to Prior Year Status:<br/><math>(+2) \text{ minus } (-1) = 3</math> points<br/><b>Increased by 3 points</b></p> |
| <div style="border: 1px solid black; border-radius: 50%; width: 60px; height: 30px; display: flex; align-items: center; justify-content: center; margin: 0 auto;"> <p style="margin: 0;"><b>2 points</b></p> </div>   | <div style="border: 1px solid black; border-radius: 50%; width: 60px; height: 30px; display: flex; align-items: center; justify-content: center; margin: 0 auto;"> <p style="margin: 0;"><b>3 points</b></p> </div>  |

The school's Status and Change results, 2 points and 3 points respectively, will be displayed in the Grade 11 Distance from Level 3 Report. Note that a performance level (or color) result will not be determined for this report.

**Example 2**

**Citrine Unified School District** (Kindergarten through Grade Twelve)

**Status**

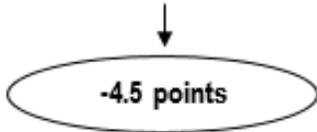

**Step 1:** Take all grade eleven 2016 CAASPP test results in mathematics and remove all records for students who are not continuously enrolled.

**Step 2:** Calculate the distance from Level 3 for each student

- **Grade 11 Scale Score Range for Level 3:** 2,628 to 2,717  
Take each student's mathematics score results and calculate the distance from 2,628.
  - Example: Jack scored 2,620. The calculated distance is:  
 $2620 \text{ minus } 2628 = 8 \text{ points below Level 3.}$
  - Example: Jill scored 2,627. The calculated distance is:  
 $2,627 \text{ minus } 2,628 = 1 \text{ point below Level 3.}$

**Step 3:** Add all of the distances calculated for each student in Step 2.  
Taking the distances calculated for Jack and Jill above:  
 $(-8) + (-1) = -9 \text{ points}$

**Calculate Status:** Take the total sum from Step 3 and divide by the total number of CAASPP ELA test takers. (This number was determined in Step 1.) Keeping with the examples for Jack and Jill:  
 $-9 \text{ points (Step 3) divided by 2 (Step 1) = -4.5 points}$   
The district's average is 4.5 points below Level 3.

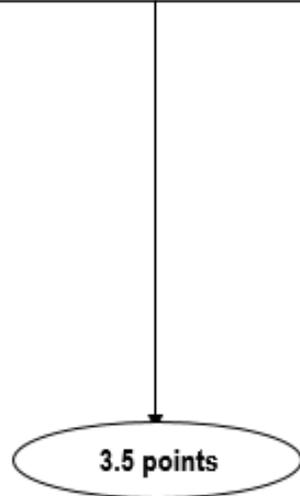

**Change**

Current Year Status: **-4.5 points**

Prior Year Status: **-1 points**

**Change Calculation:**  
*Difference* Between Current Year Status to Prior Year Status:  
 $(-4.5) \text{ minus } (-1) = -3.5 \text{ points}$   
**Decreased by 3.5 points**

The district's Status and Change results, -4.5 points and 3.5 points respectively, will be displayed in the Grade 11 Distance from Level 3 Report. Note that a performance level (or color) result will not be determined for this report.

# Local Indicators

The Dashboard also reports progress on local indicators, which will be used to support LEAs in identifying strengths, weaknesses, and areas that need improvement. Progress on local indicators, along with state indicators, will be used to determine whether LEAs are eligible for assistance; and to assist the SSPI in determining whether LEAs are eligible for more intensive state support/intervention.

This section covers the six local indicators (see Table 12) that will be **uploaded** into the Dashboard **by LEAs**.

**Table 12**

| LCFF State Priority     | Description   |
|-------------------------|---|
| Priority 1              | Appropriately Assigned Teachers, Access to Curriculum-Aligned Instructional Materials, and Safe, Clean and Functional School Facilities |
| Priority 2              | Implementation of State Academic Standards  |
| Priority 3              | Parent Engagement   |
| Priority 6              | School Climate – Local Climate Surveys  |
| Priority 9 (COEs Only)  | Coordination of Services for Expelled Students  |
| Priority 10 (COEs Only) | Coordination of Services for Foster Youth   |

As noted in the section titled “Accessing the California School Dashboard,” the bottom of the Equity Report will contain data reported for local indicators. The local indicators **only** apply at the LEA level.

To meet the LCFF statutory requirements, the new accountability system includes standards for local indicators to help LEAs measure and report their progress. For each local indicator reported in the Equity Report, LEAs must complete the following steps to meet the approved standards:

1. Measure their progress using locally available information,
2. Report the results to the LEA’s local governing board at a regularly scheduled meeting of the local governing board, and
3. Upload and publically report the results through the Dashboard

LEAs measure progress by completing local self-reflection tools or the self-reflection tools provided by the Dashboard, or from a menu of local measures, and report these results to local governing boards, stakeholders and members of the public. After the completion of the self-assessment/local measure options and reporting of progress, LEAs will use the following criteria to assess its performance:

- Met
- Not Met
- Not Met for Two or More Years (red)

Appendix B identifies the self-reflection tools that have been approved by the SBE.

# Lowest Five Percent of Title I Schools and Local Educational Agencies Eligible for Support

## Lowest Five Percent of Title I Schools

In fall 2017, the SBE will approve the state plan for the ESSA, which includes the criteria for identifying the lowest five percent of Elementary and Secondary Education Act ***Title I*** schools. Note that these schools will not be identified until fall 2018.

## Local Educational Agencies Eligible for Technical Assistance/Intensive Interventions

Under the LCFF statutes, LEAs are eligible for technical assistance and intensive intervention based on **student group performance in each LCFF state priority area**.

### Technical Assistance (LEAs Identified in Fall 2017)

An LEA is eligible for technical assistance if *one student group* meets the criteria listed in Table 13 in *two or more* LCFF state priority areas. (EC sections 52071[b] and 52071.5[b])

### Intensive Intervention (LEAs Identified in Fall 2019)

An LEA is eligible for intensive intervention if *three or more student groups* meet the criteria listed in Table 13 *for two or more* LCFF state priority areas in *three out of four consecutive years*. (EC sections 52072 and 52072.5)

## Criteria

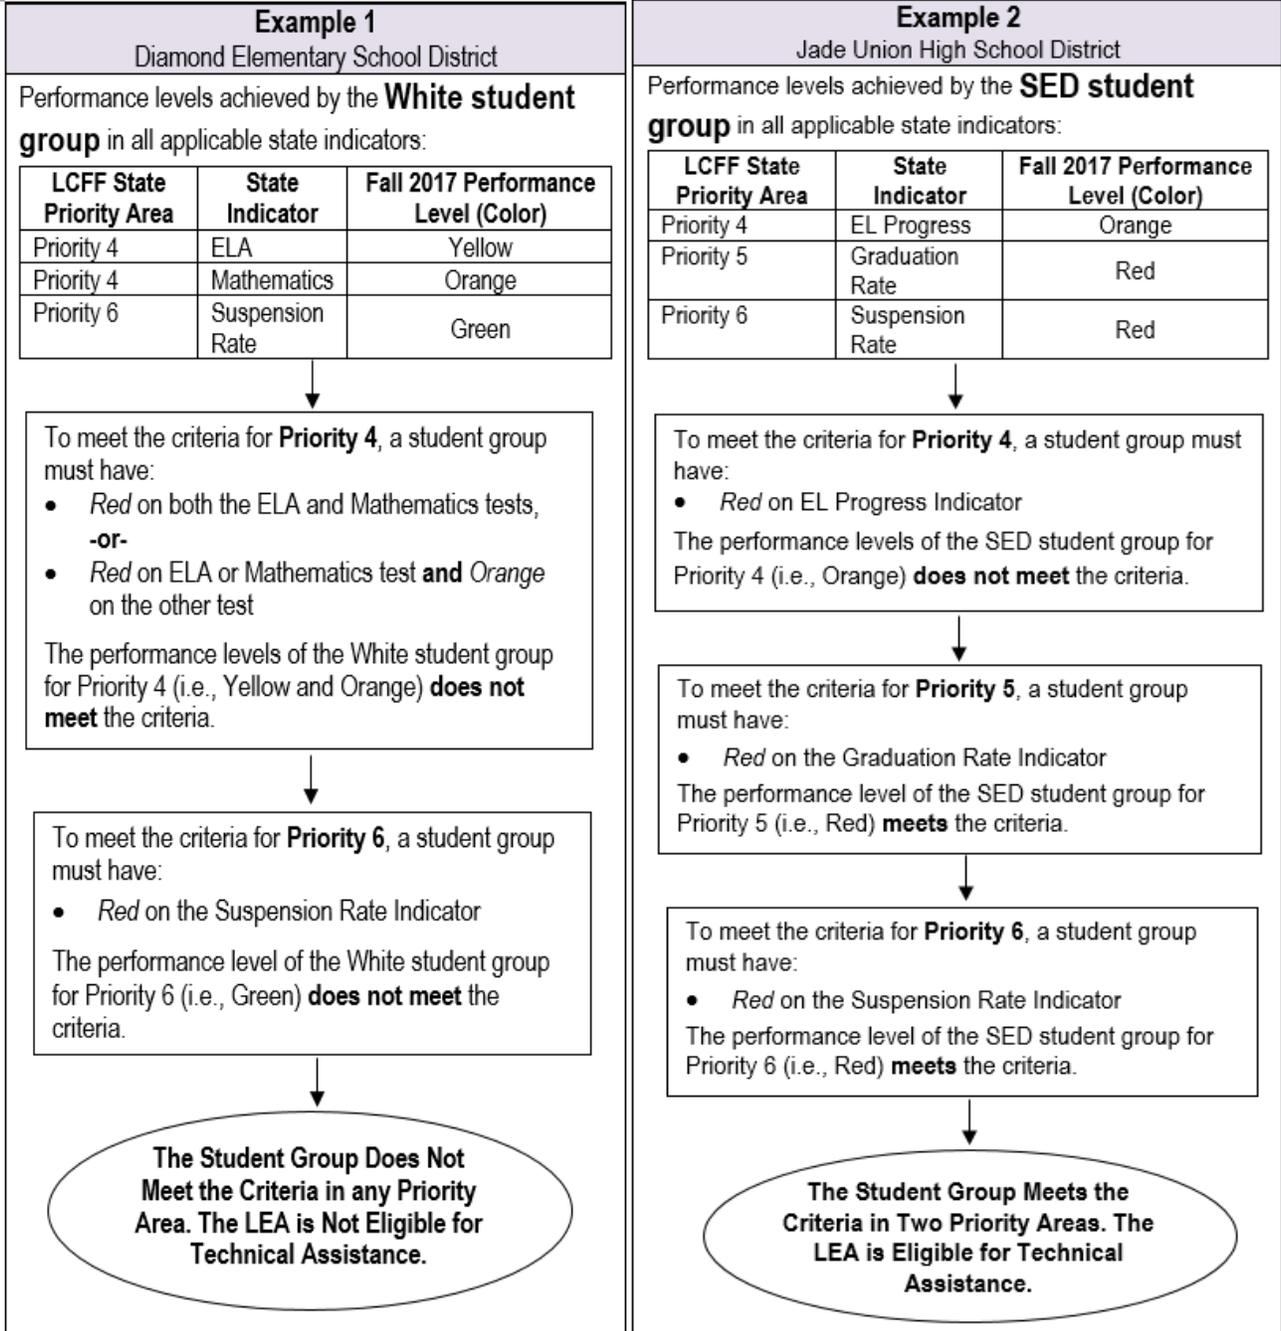

Table 13 identifies the student group criteria for each LCFF state priority area. It also identifies if the data tied to the LCFF state priority area are derived from a state indicator(s) or local indicator. However, because the eligibility criteria require at least two years of data for local indicators, **only** the performance levels (or colors) *from the state indicators* will be used for the initial LEAs eligibility list for technical assistance. In addition, since LEAs will be eligible for intensive interventions after three consecutive years, the first time an LEA would be eligible for intensive interventions is 2019.

**Table 13**

| <b>Criteria for Determining LEA Eligibility for Technical Assistance and Intervention</b>  |
|--|
| <p><b>Basics (Priority 1)</b></p> <ul style="list-style-type: none"> <li>• <i>Not Met for Two or More Years</i> on Local Performance Indicator</li> </ul>  |
| <p><b>Implementation of State Academic Standards (Priority 2)</b></p> <ul style="list-style-type: none"> <li>• <i>Not Met for Two or More Years</i> on Local Performance Indicator</li> </ul>  |
| <p><b>Parent Engagement (Priority 3)</b></p> <ul style="list-style-type: none"> <li>• <i>Not Met for Two or More Years</i> on Local Performance Indicator</li> </ul>   |
| <p><b>Pupil Achievement (Priority 4)</b></p> <ul style="list-style-type: none"> <li>• <i>Red</i> on both English language arts and math tests, <b>or</b></li> <li>• <i>Red</i> on English language arts or math test <b>and Orange</b> on the other test, <b>or</b></li> <li>• <i>Red</i> on the English Learner Progress Indicator (EL student group only)</li> </ul> |
| <p><b>Pupil Engagement (Priority 5)</b></p> <ul style="list-style-type: none"> <li>• <i>Red</i> on Graduation Rate Indicator, <b>or</b></li> <li>• <i>Red</i> on Chronic Absence Indicator</li> </ul>  |
| <p><b>School Climate (Priority 6)</b></p> <ul style="list-style-type: none"> <li>• <i>Red</i> on Suspension Rate Indicator, <b>or</b></li> <li>• <i>Not Met for Two or More Years</i> on Local Performance Indicator</li> </ul>  |
| <p><b>Access to and Outcomes in a Broad Course of Study (Priorities 7 &amp; 8)</b></p> <ul style="list-style-type: none"> <li>• <i>Red</i> on College/Career Indicator</li> </ul>  |
| <p><b>Coordination of Services for Expelled Pupils – COEs Only (Priority 9)</b></p> <ul style="list-style-type: none"> <li>• <i>Not Met for Two or More Years</i> on Local Performance Indicator</li> </ul>  |
| <p><b>Coordination of Services for Foster Youth – COEs Only (Priority 10)</b></p> <ul style="list-style-type: none"> <li>• <i>Not Met for Two or More Years</i> on Local Performance Indicator</li> </ul>  |

## Examples of How LEAs Are Eligible for Technical Assistance

For an LEA to be identified for technical assistance, **one student group** must meet specific criteria (identified in Table 13) in two or more different LCFF state priority areas.

**Example 3**  
Turquoise Union Elementary School District

Performance levels achieved by the **EL student group** in all applicable state indicators:

| LCFF State Priority Area | State Indicator | Fall 2017 Performance Level (Color) |
|--------------------------|-----------------|-------------------------------------|
| Priority 4               | ELA             | Red                                 |
| Priority 4               | Mathematics     | Red                                 |
| Priority 4               | EL Progress     | Yellow                              |
| Priority 6               | Suspension Rate | Green                               |

↓

To meet the criteria for **Priority 4**, a student group must have:

- *Red* on both the ELA and Mathematics tests, **-or-**
- *Red* on ELA or Mathematics test **and Orange** on the other test, **-or-**
- *Red* on the EL Progress

The performance level of the EL student group for Priority 4 (i.e., Red in ELA and Red in mathematics) **meets** the criteria.

↓

To meet the criteria for **Priority 6**, a student group must have:

- *Red* on the Suspension Rate Indicator

The performance level of the EL student group for Priority 6 (i.e., Green) **does not meet** the criteria.

↓

**The Student Group Meets the Criteria for Priority Area 4, but Not for Priority Area 6. The LEA is Not Eligible for Technical Assistance.**

**Example 4**  
Pearl Unified School District

Performance levels achieved by the **Black or African American student group** in all applicable state indicators:

| LCFF State Priority Area | State Indicator | Fall 2017 Performance Level (Color) |
|--------------------------|-----------------|-------------------------------------|
| Priority 4               | ELA             | Orange                              |
| Priority 4               | Mathematics     | Orange                              |
| Priority 5               | Graduation Rate | Yellow                              |
| Priority 6               | Suspension Rate | Yellow                              |

↓

To meet the criteria for **Priority 4**, a student group must have:

- *Red* on both the ELA and Mathematics tests, **-or-**
- *Red* on ELA or Mathematics test **and Orange** on the other test

The performance level of the African American student group for Priority 4 (i.e., Orange and Orange) **does not meet** the criteria.

↓

To meet the criteria for **Priority 5**, a student group must have:

- *Red* on the Suspension Rate Indicator

The performance level of the African American student group for Priority 5 (i.e., Yellow), **does not meet** the criteria.

↓

To meet the criteria for **Priority 6** a student group must have:

- *Red* on the Suspension Rate Indicator

The performance level of the African American student group for Priority 6 (i.e., Yellow) **does not meet** the criteria.

↓

**The Student Group Did Not Meet the Criteria in any of the Priority Areas. The LEA is Not Eligible for Technical Assistance.**

**Example 5**  
Violet Unified School District

Performance levels achieved by the **EL student group** in all applicable state indicators:

| LCFF State Priority Area | State Indicator | Fall 2017 Performance Level (Color) |
|--------------------------|-----------------|-------------------------------------|
| Priority 4               | ELA             | Orange                              |
| Priority 4               | Mathematics     | Orange                              |
| Priority 4               | EL Progress     | Red                                 |
| Priority 5               | Graduation Rate | Red                                 |
| Priority 6               | Suspension Rate | Orange                              |

↓

To meet the criteria for **Priority 4**, a student group must have:

- *Red* on both the ELA and Mathematics tests,
- or-
- *Red* on ELA or Mathematics test **and** *Orange* on the other test,
- or-
- *Red* on the EL Progress

The performance level of the EL student group for Priority 4 (i.e., Red in EL Progress) **meets** the criteria.

↓

To meet the criteria for **Priority 5**, a student group must have:

- *Red* on the Graduation Rate Indicator

The performance level of the EL student group for Priority 5 (i.e., Red) **meets** the criteria.

↓

To meet the criteria for **Priority 6**, a student group must have:

- *Red* on the Suspension Rate Indicator

The performance level of the EL student group for Priority 6 (i.e., Orange) **does not meet** the criteria.

↓

**The Student Group Meets the Criteria for Two Priority Areas (4 and 6). The LEA is Eligible for Technical Assistance.**

# Appendix A

## Distributions, Cut Scores, and Five-by-Five Color Tables

This section contains the statewide distributions used to set the cut scores approved by the SBE, including the five-by-five color tables that identify the 25 performance levels (or colors) for each state indicator.

### Suspension Rate Indicator

The Suspension Rate Indicator is based on multiple distributions because the suspension data varies widely among LEA type (elementary, high, and unified) and school type (elementary, middle, and high). There are six different sets of cut points for “Status” and “Change”: (1) three sets based on LEA type distributions and (2) three sets based on school type distributions.

#### LEA-Level Status

“Status” is the current year suspension rate. Table 1 displays the proposed cut scores for each “Status” level by LEA type: elementary, high, and unified school districts.

**Table 1**

| Status Level | Elementary School District                    | High School District                          | Unified School District                       |
|--------------|---|---|---|
| Very Low     | Suspension rate is 0.5% or less.              | Suspension rate is 1.5% or less.              | Suspension rate is 1.0% or less.              |
| Low          | Suspension rate is greater than 0.5% to 1.5%. | Suspension rate is greater than 1.5% to 3.5%. | Suspension rate is greater than 1.0% to 2.5%. |
| Medium       | Suspension rate is greater than 1.5% to 3.0%. | Suspension rate is greater than 3.5% to 6.0%. | Suspension rate is greater than 2.5% to 4.5%. |
| High         | Suspension rate is greater than 3.0% to 6.0%. | Suspension rate is greater than 6.0% to 9.0%. | Suspension rate is greater than 4.5% to 8.0%. |
| Very High    | Suspension rate is greater than 6.0%.         | Suspension rate is greater than 9.0%.         | Suspension rate is greater than 8.0%.         |

Tables 2 through 4 display the “Status” cut scores based on the statewide LEA distributions.

**Table 2: Elementary School Districts**

| Percentile | Suspension Rate | Status Level |
|------------|-----------------|--------------|
| 5          | 8.8000          | Very High    |
| 10         | 6.4000          |              |
| 11.2       | 6.0000          | High         |
| 15         | 5.3500          |              |
| 20         | 4.6000          |              |
| 25         | 4.0000          |              |
| 30         | 3.5000          |              |
| 35         | 3.1000          |              |
| 36.1       | 3.0000          | Medium       |
| 40         | 2.8000          |              |
| 45         | 2.6000          |              |
| 50         | 2.1000          |              |
| 55         | 1.9000          |              |
| 60         | 1.6000          |              |
| 61         | 1.5000          | Low          |
| 65         | 1.3000          |              |
| 70         | 1.1000          |              |
| 75         | 0.7000          |              |
| 80         | 0.5000          | Very Low     |
| 85         | 0.3000          |              |
| 90         | 0.0000          |              |
| 95         | 0.0000          |              |

Total number of elementary school districts = 349

**Table 3: High School Districts**

| Percentile | Suspension Rate | Status Level |
|------------|-----------------|--------------|
| 5          | 12.0            | Very High    |
| 10         | 11.3            |              |
| 15         | 9.5             |              |
| 16         | 9.0             | High         |
| 20         | 8.6             |              |
| 25         | 7.9             |              |
| 30         | 7.4             |              |

Total number of unified school districts = 337

**LEA-Level Change**

“Change” is the difference between the current year suspension rate and the prior year suspension rate. Table 5 displays the proposed cut scores for each “Change” level by LEA type.

**Table 5**

| <b>Change Level</b>     | <b>Elementary School District</b>                        | <b>High School District</b>                              | <b>Unified School District</b>                           |
|-------------------------|--|--|--|
| Declined Significantly  | Suspension rate declined by 2% or greater.               | Suspension rate declined by 3% or greater.               | Suspension rate declined by 2% or greater.               |
| Declined                | Suspension rate declined by 0.3% to less than 2%.        | Suspension rate declined by 0.5% to less than 3%.        | Suspension rate declined by 0.3% to less than 2%         |
| Maintained              | Suspension rate declined or increased by less than 0.3%. | Suspension rate declined or increased by less than 0.5%. | Suspension rate declined or increased by less than 0.3%. |
| Increased               | Suspension rate increased by 0.3% to 2%.                 | Suspension rate increased by 0.5% to 3%.                 | Suspension rate increased by 0.3% to 2%.                 |
| Increased Significantly | Suspension rate increased by greater than 2%.            | Suspension rate increased by greater than 3%.            | Suspension rate increased by greater than 2%.            |

Tables 6 through 8 displays the “Change” cut scores based on the statewide LEA type.

**Table 6: Elementary School Districts (Suspension)**

| Percentile | % Change from Prior Year to Current Year | Change Level            |
|------------|--|-------------------------|
| 5          | 2.2500                                   | Increased Significantly |

| 95         | -3.2000                                  |                         |

Total number of unified school districts = 337

**School-Level Status**

“Status” at the school-level uses the current year suspension rate. Table 9 displays the cut scores for each “Status” level by school type (i.e., elementary, middle, and high schools).

**Table 9**

|           |   |   |   |
|-----------|---|---|---|
| Very Low  | Suspension rate is 0.5% or less.              | Suspension rate is 0.5% or less.            | Suspension rate is 0.5% or less.              |
| Low       | Suspension rate is greater than 0.5% to 1.0%. | Suspension rate is greater than 0.5% to 2%. | Suspension rate is greater than 0.5% to 1.5%. |
| Medium    | Suspension rate is greater than 1% to 3%.     | Suspension rate is greater than 2% to 8%.   | Suspension rate is greater than 1.5% to 6%.   |
| High      | Suspension rate is greater than 3% to 6%.     | Suspension rate is greater than 8% to 12%.  | Suspension rate is greater than 6% to 10%.    |
| Very High | Suspension rate is greater than 6%.           | Suspension rate is greater than 12%.        | Suspension rate is greater than 10%.          |

Tables 10 through 12 display the “Status” cut scores based on the statewide distributions for elementary, middle, and high schools.

**Table 10: Elementary Schools**

| Percentile | Suspension Rate | Status Level |
|------------|-----------------|--------------|
| 5          | 6.7000          | Very High    |
| 6          | 6.0000          |              |
| 10         | 4.7000          | High         |
| 15         | 3.7000          |              |
| 20         | 3.0000          | Medium       |
| 25         | 2.4000          |              |
| 30         | 2.0000          |              |
| 35         | 1.7000          |              |

| 95                | 0.0000                 |                     |

Total number of high schools = 1,481

**School-Level Change**

“Change” at the school-level is the difference between the current year suspension rate and the prior year suspension rate. Table 13 displays the cut scores for each “Change” level by school type.

**Table 13**

| <b>Change Level</b>     | <b>Elementary School</b>                                 | <b>Middle School</b>                                     | <b>High School</b>                                       |
|-------------------------|--|--|--|
| Declined Significantly  | Suspension rate declined by 1% or greater.               | Suspension rate declined by 3% or greater.               | Suspension rate declined by 2% or greater.               |
| Declined                | Suspension rate declined by 0.3% to less than 1%.        | Suspension rate declined by 0.3% to less than 3%.        | Suspension rate declined by 0.3% to less than 2%.        |
| Maintained              | Suspension rate declined or increased by less than 0.3%. | Suspension rate declined or increased by less than 0.3%. | Suspension rate declined or increased by less than 0.3%. |
| Increased               | Suspension rate increased by 0.3% to 2%.                 | Suspension rate increased by 0.3% to 4%.                 | Suspension rate increased by 0.3% to 3%.                 |
| Increased Significantly | Suspension rate increased by greater than 2%.            | Suspension rate increased by greater than 4%.            | Suspension rate increased by greater than 3%.            |

Tables 14 through 16 display the “Change” cut scores based on the statewide distributions for elementary, middle, and high schools.

**Table 14: Elementary Schools  
(Suspension)**

| Percentile | % Change from Prior Year to Current Year | Change Level            |
|------------|--|-------------------------|
| 4          | 2.3000                                   | Increased Significantly |
| 5          | 2.0000                                   | Increased               |

**Five-by-Five Color Tables and Performance Levels for LEAs, Schools, and Student Groups**

Tables 17 through 22 identifies the “Status” and “Change” cut scores presented earlier based on district and school types. It also reflects the performance levels (or colors) that LEAs and schools would earn based on their “Status” and “Change” results.

**Table 17: Suspension Indicator (Elementary District)**

## English Learner Progress Indicator

**Status:** For the English Learner Progress Indicator (ELPI), “Status” is the percent of ELs who moved up at least one performance level on the CELDT from prior year to current year and the percent of EL students who were reclassified in the prior year. Table 23 displays the cut scores for each of the “Status” levels.

**Table 23**

| Status Level | Status Cut Score  |
|--------------|---|
| Very Low     | Less than 60% of EL students increased at least one CELDT level or were reclassified.         |
| Low          | 60% to less than 67% of EL students increased at least one CELDT level or were reclassified.  |
| Medium       | 67% to less than 75%, of EL students increased at least one CELDT level or were reclassified. |
| High         | 75% to less than 85% EL students increased at least one CELDT level or were reclassified.     |
| Very High    | 85% or more EL students increased at least one CELDT level or were reclassified.              |

Table 24 displays the ELPI “Status” cut scores based on the statewide LEA-level distribution.

**Table 24**

| Percentile | Moved Up at Least One Performance Level in Current Year Plus Reclassified in Prior Year | Status Level |
|------------|---|--------------|
| 5          | 52.81   | Very Low     |
| 10         | 57.40   |              |
| 14.6       | 60.00   | Low          |
| 15         | 60.23   |              |
| 20         | 62.30   |              |
| 25         | 63.85   |              |
| 30         | 65.40   |              |
| 35         | 66.70   |              |
| 37.3       | 67.00   | Medium       |
| 40         | 67.70   |              |
| 45         | 68.60   |              |
| 50         | 69.70   |              |
| 55         | 70.70   |              |
| 60         | 71.90   |              |
| 65         | 73.10   |              |
| 70         | 74.60   |              |
| 71.7       | 75.00   | High         |
| 75         | 76.05   |              |
| 80         | 77.96   |              |
| 85         | 80.17   |              |
| 90         | 83.58   |              |
| 91.5       | 85.00   | Very High    |
| 95         | 88.28   |              |

Total number of LEAs = 1,181

**Change** is based on the difference in “Status” from current year to prior year. Table 25 displays the cut scores determined for the ELPI “Change” levels.

**Table 25**

| <b>Change Level</b>     | <b>Change Cut Score</b>                       |
|-------------------------|---|
| Declined Significantly  | ELPI declined by more than 10%.               |
| Declined                | ELPI declined 1.5% to 10%.                    |
| Maintained              | ELPI declined or increased by less than 1.5%. |
| Increased               | ELPI increased by 1.5% to less than 10%.      |
| Increased Significantly | ELPI increased by 10% or more.                |

Table 26 displays the ELPI “Change” cut scores based on the statewide LEA-level distribution.

**Table 26**

| <b>Percentile</b> | <b>% Change from Prior Year to Current Year</b> | <b>Change Level</b>     |
|-------------------|---|-------------------------|
| 5                 | -18.88  | Declined Significantly  |
| 10                | -11.60  |                         |
| 12.4              | -10.00  | Declined                |
| 15                | -8.54   |                         |
| 20                | -6.20   |                         |
| 25                | -4.75   |                         |
| 30                | -3.54   |                         |
| 35                | -2.40   |                         |
| 39.7              | -1.50   |                         |
| 40                | -1.42   | Maintained              |
| 45                | -0.70   |                         |
| 50                | 0.00  |                         |
| 55                | 0.71  |                         |
| 60                | 1.40  |                         |
| 62.3              | 1.50  |                         |
| 65                | 2.30  | Increased               |
| 70                | 3.20  |                         |
| 75                | 4.70  |                         |
| 80                | 5.90  |                         |
| 85                | 8.40  |                         |
| 88.1              | 10.00   |                         |
| 90                | 12.00   | Increased Significantly |
| 95                | 18.30   |                         |

Total number of LEAs = 1,181

**Five-by-Five Color Table and Performance Levels for LEAs and Schools**

Table 27 identifies the “Status” and “Change” cut scores presented earlier. It also reflects the performance levels (or colors) that the EL student group would earn (for LEAs and schools) based on their “Status” and “Change” results.

**Table 27**

**English Learner Progress Performance Levels**

**English Learner Progress Change (Change in Percent Progressing and Reclassified)**

| English Learner Progress Status<br>(Percent Progressing Plus Reclassified) | Level                              | Declined Significantly<br>by greater than 10.0% | Declined<br>by 1.5% to 10.0% | Maintained<br>Declined or increased by less than 1.5% | Increased<br>by 1.5% to less than 10.0% | Increased Significantly<br>by 10.0% or greater |
|--|------------------------------------|---|------------------------------|---|---|--|
|  | Very High<br>85.0% or greater      | Yellow  | Green                        | Blue  | Blue                                    | Blue   |
|  | High<br>75.0% to less than 85.0%   | Orange  | Yellow                       | Green   | Green                                   | Blue   |
|  | Medium<br>67.0% to less than 75.0% | Orange  | Orange                       | Yellow  | Green                                   | Green  |
|  | Low<br>60.0% to less than 67.0%    | Red   | Orange                       | Orange  | Yellow                                  | Yellow   |
|  | Very Low<br>Less than 60.0%        | Red   | Red                          | Red   | Orange                                  | Yellow   |

## Graduation Rate Indicator

**Status** is the current four-year cohort graduation rate (i.e., 2014–15). Because the Every Student Succeeds Act (ESSA) requires states to identify high schools with a graduation rate of less than 67 percent for support, the cut score for the “Very Low” level was set at less than 67 percent. Table 28 displays the proposed cut scores for each “Status” level.

**Table 28**

| Status Level | Status Cut Score                         |
|--------------|--|
| Very Low     | Graduation rate is less than 67%.        |
| Low          | Graduation rate is 67% to less than 85%. |
| Medium       | Graduation rate is 85% to less than 90%. |
| High         | Graduation rate is 90% to less than 95%. |
| Very High    | Graduation rate is 95% or greater.       |

Table 29 displays the “Status” cut scores based on the statewide LEA-level distribution.

**Table 29**

| Percentile | Graduation Rate | Status Level |
|------------|-----------------|--------------|
| 5          | 61.8760         | Very Low     |
| 6.2        | 67.0000         |              |
| 10         | 77.1140         | Low          |
| 15         | 81.8700         |              |
| 20         | 84.7200         |              |
| 20.2       | 85.0000         |              |
| 25         | 86.8200         | Medium       |
| 30         | 88.2880         |              |
| 35         | 89.4880         |              |
| 37.1       | 90.0000         |              |
| 40         | 90.5800         | High         |
| 45         | 91.3240         |              |
| 50         | 92.1500         |              |
| 55         | 92.9100         |              |
| 60         | 93.5240         |              |
| 65         | 94.2000         |              |
| 70         | 94.8020         |              |
| 72         | 95.0000         |              |
| 75         | 95.3500         | Very High    |
| 80         | 96.0560         |              |
| 85         | 96.7740         |              |
| 90         | 97.3280         |              |
| 95         | 98.0120         |              |

Total number of LEAs = 515

**Change** is the difference between the current four-year cohort graduation rate and a three-year average (e.g., 2011–12, 2012–13, and 2013–14). Table 30 displays the proposed cut scores for each “Change” level:

**Table 30**

| <b>Change Level</b>     | <b>Change Cut Score</b>                                |
|-------------------------|--|
| Declined Significantly  | Graduation rate declined by more than 5%.              |
| Declined                | Graduation rate declined by 1% to 5%.                  |
| Maintained              | Graduation rate declined or increased by less than 1%. |
| Increased               | Graduation rate increased by 1% to less than 5%.       |
| Increased Significantly | Graduation rate increased by 5% or more.               |

Table 31 displays the “Change” cut scores based on the statewide LEA-level distribution.

**Table 31**

| <b>Percentile</b> | <b>Graduation Rate Change</b> | <b>Change Level</b>     |
|-------------------|-------------------------------|-------------------------|
| 5                 | -9.4200                       | Declined Significantly  |
| 10                | -6.7400                       |                         |
| 15                | -5.3000                       |                         |
| 16.5              | -5.0000                       | Declined                |
| 20                | -4.4000                       |                         |
| 25                | -3.6000                       |                         |
| 30                | -3.0000                       |                         |
| 35                | -2.4000                       |                         |
| 40                | -1.9000                       |                         |
| 45                | -1.6000                       |                         |
| 50                | -1.2000                       |                         |
| 52                | -1.0000                       |                         |
| 55                | -0.7000                       | Maintained              |
| 60                | -0.3000                       |                         |
| 65                | 0.4000                        |                         |
| 69.5              | 1.0000                        | Increased               |
| 70                | 1.1000                        |                         |
| 75                | 1.6000                        |                         |
| 80                | 2.5800                        |                         |
| 85                | 3.9000                        |                         |
| 89.5              | 5.0000                        |                         |
| 90                | 5.3400                        | Increased Significantly |
| 95                | 8.3000                        |                         |

Total number of LEAs = 515

**Five-by-Five Color Tables and Performance Levels for LEAs, Schools, and Student Groups**

Table 32 identifies the “Status” and “Change” cut scores presented earlier. It also reflects the performance levels (or colors) that LEAs and schools would earn based on their “Status” and “Change” results.

**Table 32**

**Graduation Performance Categories**

**Graduation Change**

| Level                              | Declined Significantly | Declined        | Maintained                              | Increased                 | Increased Significantly |
|------------------------------------|------------------------|-----------------|---|---------------------------|-------------------------|
|                                    | by greater than 5.0%   | by 1.0% to 5.0% | Declined or increased by less than 1.0% | by 1.0% to less than 5.0% | by 5.0% or greater      |
| Very High<br>95.0% or greater      | N/A                    | Blue            | Blue                                    | Blue                      | Blue                    |
| High<br>90.0% to less than 95.0%   | Orange                 | Yellow          | Green                                   | Green                     | Blue                    |
| Medium<br>85.0% to less than 90.0% | Orange                 | Orange          | Yellow                                  | Green                     | Green                   |
| Low<br>67.0% to less than 85.0%    | Red                    | Orange          | Orange                                  | Yellow                    | Yellow                  |
| Very Low<br>Less than 67.0%        | Red                    | Red             | Red                                     | Red                       | Red                     |

Note:

- Red Performance Level:** The “Red Performance Level” is different for the Graduation Rate Indicator compared to the other indicators. All LEAs and schools with a graduation rate below 67 percent will be placed in the Red performance level.
- Blue Performance Level:** Any LEA or school with a graduation rate at or above 95 percent will be categorized in the “Blue Performance Level” regardless of their “Change” results. For example, a school with a graduation rate of 98 percent in their prior year and a graduation rate of 96 percent in the current year will be placed in the Blue performance level.

**Academic Indicator: Grades Three through Eight**

**English Language Arts/Literacy**

**Status** is the average Distance from Level 3 (DF3) using the 2016 Smarter Balanced Summative Assessments ELA results. Table 33 displays the cut scores for each Status level.

**Table 33**

| Status Level | Status Cut Score   |
|--------------|--|
| Very Low     | Average DF3 is more than 70 points below.                    |
| Low          | Average DF3 is more than 5 points below to 70 points below.  |
| Medium       | Average DF3 is 5 points below to less than 10 points above.  |
| High         | Average DF3 is 10 points above to less than 45 points above. |
| Very High    | Average DF3 is 45 or more points above.                      |

Table 34 displays the “Status” cut scores based on the statewide LEA-level distribution.

**Table 34**

| Percentile | ELA Average DF3 | Status Level |
|------------|-----------------|--------------|
| 5          | -71.2           | Very Low     |
| 5.3        | -70             |              |
| 10         | -57.4           |              |
| 15         | -48.8           |              |
| 20         | -42.9           |              |
| 25         | -38.1           | Low          |
| 30         | -33.1           |              |
| 35         | -28.3           |              |
| 40         | -23.2           |              |
| 45         | -18.6           |              |
| 50         | -13.3           |              |
| 55         | -8.5            | Medium       |
| 58.1       | -5              |              |
| 60         | -2.6            |              |
| 65         | 2.5             |              |
| 70         | 9.2             | High         |
| 70.7       | 10              |              |
| 75         | 16.85           |              |
| 80         | 23.7            |              |
| 85         | 33.3            |              |
| 90         | 45              | Very High    |
| 95         | 61.5            |              |

Total number of LEAs = 1,559

**Change** is the difference between the current Status and the prior year Status. Table 35 displays the cut scores for each Change level.

**Table 35**

| <b>Change Level</b>     | <b>Change Cut Score</b>   |
|-------------------------|---|
| Declined Significantly  | Average DF3 declined by more than 15 points.                                  |
| Declined                | Average DF3 declined by 1 to 15 points.                                       |
| Maintained              | Average DF3 declined by less than 1 point or increased by less than 7 points. |
| Increased               | Average DF3 increased by 7 to less than 20 points.                            |
| Increased Significantly | Average DF3 increased by 20 or more points.                                   |

Table 36 displays the “Change” cut scores based on the statewide LEA-level distribution.

**Table 36**

| <b>Percentile</b> | <b>ELA Change from Prior Year to Current Year</b> | <b>Change Level</b>    |
|-------------------|---|------------------------|
| 2.0               | -18   | Declined Significantly |
| 2.6               | -15   |                        |
| 5                 | -11.1   |                        |
| 10                | -5.1  |                        |
| 15                | -1.7  |                        |
| 16.3              | -1  |                        |
| 20                | 0.9   | Declined               |
| 25                | 2.7   |                        |
| 30                | 4   |                        |
| 35                | 5.2   |                        |
| 40                | 6.2   |                        |
| 43.0              | 7   |                        |
| 45                | 7.6   | Maintained             |
| 50                | 8.55  |                        |
| 55                | 9.6   |                        |
| 60                | 10.8  |                        |
| 65                | 11.9  |                        |
| 70                | 13.1  |                        |
| 75                | 14.6  |                        |
| 80                | 16.6  |                        |
| 85                | 19.1  |                        |
| 86.6              | 20  |                        |
| 90                | 23.2  | Increased              |
| 95                | 29.3  |                        |

Total number of LEAs = 1,559

**Five-by-Five Color Table and Performance Levels for LEAs, Schools, and Student Groups**

Table 37 identifies the “Status” and “Change” cut scores presented earlier. It also reflects the performance levels (or colors) that LEAs and schools would earn based on their “Status” and “Change” results.

**Table 37**

**ELA Academic Indicator – Distance from Level 3**

**Change in Average Distance from Level 3**

| Level  | Declined Significantly | Declined          | Maintained   | Increased                   | Increased Significantly |
|--|------------------------|-------------------|--|-----------------------------|-------------------------|
|  | by more than 15 points | by 1 to 15 points | Declined by less than 1 point or increased by less than 7 points | by 7 to less than 20 points | by 20 points or more    |
| <b>Very High</b><br>45 or more points above                  | Yellow                 | Green             | Blue   | Blue                        | Blue                    |
| <b>High</b><br>10 points above to less than 45 points above  | Orange                 | Yellow            | Green  | Green                       | Blue                    |
| <b>Medium</b><br>5 points below to less than 10 points above | Orange                 | Orange            | Yellow   | Green                       | Green                   |
| <b>Low</b><br>More than 5 points below to 70 points below    | Red                    | Orange            | Yellow   | Yellow                      | Yellow                  |
| <b>Very Low</b><br>More than 70 points below                 | Red                    | Red               | Red  | Orange                      | Yellow                  |

## Mathematics

**Status** is the average DF3 using the 2016 Smarter Balanced Summative Assessments mathematics results. Table 38 displays the cut scores for each Status level.

**Table 38**

| Status Level | Status Cut Score   |
|--------------|--|
| Very Low     | Average DF3 is more than 95 points below.                    |
| Low          | Average DF3 is more than 25 points below to 95 points below. |
| Medium       | Average DF3 is more than 5 points below to 25 points below.  |
| High         | Average DF3 is 5 points below to less than 35 points above.  |
| Very High    | Average DF3 is 35 or more points above.                      |

Table 39 displays the “Status” cut scores based on the statewide LEA-level distribution.

**Table 39**

| Percentile | Math Average DF3 | Status Levels |
|------------|------------------|---------------|
| 5          | -96.1            | Very Low      |
| 5.2        | -95              | Low           |
| 10         | -83.7            |               |
| 15         | -74.9            |               |
| 20         | -69              |               |
| 25         | -63.85           |               |
| 30         | -57.8            |               |
| 35         | -51.8            |               |
| 40         | -47.1            |               |
| 45         | -41.8            |               |
| 50         | -36.35           |               |
| 55         | -31.5            |               |
| 60         | -25.4            |               |
| 60.5       | -25              |               |
| 65         | -19              | High          |
| 70         | -12.7            |               |
| 74.7       | -5               |               |
| 75         | -4.1             |               |
| 80         | 3.8              |               |
| 85         | 14.8             |               |
| 90         | 27.3             |               |
| 92.5       | 35               | Very High     |
| 95         | 45.6             |               |

Total number of LEAs = 1,558

**Change** is the difference between the current Status and the prior year Status. Table 40 displays the cut scores for each Change level.

**Table 40**

| <b>Change Level</b>     | <b>Change Cut Score</b>   |
|-------------------------|---|
| Declined Significantly  | Average DF3 declined by more than 10 points.                                  |
| Declined                | Average DF3 declined by 1 to 10 points.                                       |
| Maintained              | Average DF3 declined by less than 1 point or increased by less than 5 points. |
| Increased               | Average DF3 increased by 5 to less than 15 points.                            |
| Increased Significantly | Average DF3 increased by 15 or more points.                                   |

Table 41 displays the “Change” cut scores based on the statewide LEA-level distribution.

**Table 41**

| <b>Percentile</b> | <b>Math Change from Prior Year to Current Year</b> | <b>Math Change Levels</b> |
|-------------------|--|---------------------------|
| 5                 | -11.8  | Declined Significantly    |
| 6.6               | -10  |                           |
| 10                | -7.1   |                           |
| 15                | -4   |                           |
| 20                | -1.65  |                           |
| 21.8              | -1   | Declined                  |
| 25                | 0.2  |                           |
| 30                | 1.7  |                           |
| 35                | 3  |                           |
| 40                | 4.3  |                           |
| 43.7              | 5  | Maintained                |
| 45                | 5.3  |                           |
| 50                | 6.4  |                           |
| 55                | 7.4  |                           |
| 60                | 8.4  |                           |
| 65                | 9.7  |                           |
| 70                | 10.9   |                           |
| 75                | 12.5   |                           |
| 80                | 14.6   |                           |
| 81.5              | 15   |                           |
| 85                | 16.8   |                           |
| 90                | 20   |                           |
| 95                | 25   |                           |
|                   |  | Increased Significantly   |

Total number of LEAs = 1,558

**Five-by-Five Color Tables and Performance Levels for LEAs, Schools, and Student Groups**

Table 42 identifies the “Status” and “Change” cut scores presented earlier. It also reflects the performance levels (or colors) that LEAs and schools would earn based on their “Status” and “Change” results.

**Table 42**

**Math Academic Indicator – Distance from Level 3**

**Average Distance from Level 3**

| Level  | Declined Significantly | Declined          | Maintained   | Increased                   | Increased Significantly |
|--|------------------------|-------------------|--|-----------------------------|-------------------------|
|  | by more than 10 points | by 1 to 10 Points | Declined by less than 1 point or increased by less than 5 points | by 5 to less than 15 points | by 15 points or more    |
| <b>Very High</b><br>35 or more points above                  | Yellow                 | Green             | Blue   | Blue                        | Blue                    |
| <b>High</b><br>5 points below to less than 35 points above   | Orange                 | Yellow            | Green  | Green                       | Blue                    |
| <b>Medium</b><br>More than 5 points below to 25 points below | Orange                 | Orange            | Yellow   | Green                       | Green                   |

| <b>Very Low</b><br>More than 95 points below                 | Red                    | Red               | Red  | Orange                      | Yellow                  |

# Appendix B

## Self-Assessment Tools for Local Indicators

---

### ***LCFF Priority 1: Basic (Availability of Textbooks, Adequate Facilities, and Correctly Assigned Teachers)***

Information on Priority 1 is collected through the School Accountability Report Card (SARC). LEAs will use locally available information, including data reported through the SARC, to provide evidence of progress on Priority 1. In the future, the Dashboard, which was developed using the same Web-based user interface system that supports the CDE's SARC template, will auto-populate the SARC data into Dashboard. When this occurs, *all schools* in an LEA will need to use the CDE SARC template in order for the school-level data to automatically aggregate to the LEA-level for reporting through the Dashboard.

### ***LCFF Priority 2: Implementation of State Academic Standards***

**Standard:** LEA annually measures its progress implementing state academic standards and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

**Criteria:** LEA would assess its performance on a (*Met / Not Met / Not Met for Two or More Years*) scale.

**Evidence:** LEA would use locally available information, including data currently reported through the SARC, and determine whether it reported the results to its local governing board and through the local data selection option in the Dashboard.

### **Approach for Self-Reflection Tool to Use as Evidence**

LEAs may provide a narrative summary of their progress in the implementation of state academic standards based on locally selected measures or tools (Option 1). Alternatively, LEAs may complete the optional reflection tool (Option 2).

### **OPTION 1: Narrative Summary**

In the narrative box, identify the locally selected measures or tools that the LEA is using to track its progress in implementing the state academic standards adopted by the SBE and briefly describe why the LEA chose the selected measures or tools.

Additionally, summarize the LEA's progress in implementing the academic standards adopted by the SBE, based on the locally selected measures or tools. The adopted academic standards are:

- English Language Arts (ELA) – Common Core State Standards for ELA
- English Language Development (ELD) (Aligned to Common Core State Standards for ELA )
- Mathematics – Common Core State Standards for Mathematics
- Next Generation Science Standards
- History-Social Science
- Career Technical Education
- Health Education Content Standards
- Physical Education Model Content Standards
- Visual and Performing Arts
- World Language

|  |
|--|
|  |
|--|

**OPTION 2: Reflection Tool**

**Recently Adopted Academic Standards and/or Curriculum Frameworks**

1. **Rate the LEA’s progress in providing professional learning for teaching to the recently adopted academic standards and/or curriculum frameworks identified below.**

*Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability*

|   | 1 | 2 | 3 | 4 | 5 |
|---|---|---|---|---|---|
| ELA – Common Core State Standards for ELA                 |   |   |   |   |   |
| ELD (Aligned to ELA Standards)                            |   |   |   |   |   |
| Mathematics – Common Core State Standards for Mathematics |   |   |   |   |   |
| Next Generation Science Standards                         |   |   |   |   |   |
| History-Social Science                                    |   |   |   |   |   |

2. **Rate the LEA’s progress in making instructional materials that are aligned to the recently adopted academic standards and/or curriculum frameworks identified below available in all classrooms where the subject is taught.**

*Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability*

|   | 1 | 2 | 3 | 4 | 5 |
|---|---|---|---|---|---|
| ELA – Common Core State Standards for ELA                 |   |   |   |   |   |
| ELD (Aligned to ELA Standards)                            |   |   |   |   |   |
| Mathematics – Common Core State Standards for Mathematics |   |   |   |   |   |
| Next Generation Science Standards                         |   |   |   |   |   |
| History-Social Science                                    |   |   |   |   |   |

3. **Rate the LEA’s progress in implementing policies or programs to support staff in identifying areas where they can improve in delivering instruction aligned to the recently adopted academic standards and/or curriculum frameworks identified below (e.g., collaborative time, focused classroom walkthroughs, teacher pairing).**

*Rating Scale (lowest to highest): 1 – Exploration and Research Phase; 2 – Beginning Development; 3 – Initial Implementation; 4 – Full Implementation; 5 – Full Implementation and Sustainability*

|   | 1 | 2 | 3 | 4 | 5 |
|---|---|---|---|---|---|

| Identifying the professional learning needs of groups of teachers or staff as a whole |   |   |   |   |   |
| Identifying the professional learning needs of individual teachers                    |   |   |   |   |   |
| Providing support for teachers on the standards they have not yet mastered            |   |   |   |   |   |

**Optional Narrative**

6. **Provide any additional information that the LEA believes is relevant to understanding its progress implementing the academic standards adopted by the state board.**

**LCFF Priority 3: Parent Engagement**

*Standard:* LEA annually measures its progress in: (1) seeking input from parents in decision making; and (2) promoting parental participation in programs, and reports the results to its local governing board at a regularly scheduled meeting of the local governing board and to stakeholders and the public through the Dashboard.

*Criteria:* LEA would assess its performance on a (*Met / Not Met / Not Met for Two or More Years*) scale.

*Evidence:* LEA measures its progress using the self-reflection tool included in the Dashboard, and reports these results to its local governing board at a regularly scheduled meeting and through the local data selection option in the Dashboard.

**Approach for Self-Reflection Tool to Use as Evidence**

LEAs will provide a narrative summary of their progress toward (1) seeking input from parents/guardians in school and district decision making; and (2) promoting parental participation in programs.

The summary of progress must be based **either** on information collected through surveys of parents/guardians **or** other local measures. Under either option, the LEA briefly describes why it chose the selected measures, including whether the LEA expects that progress on the selected measure is related to goals it has established for other LCFF priorities in its LCAP.

**OPTION 1: Survey**

If the LEA administers a local survey to parents/guardians in at least one grade within each grade span that the LEA serves (e.g., K–5, 6–8, 9–12), summarize:

- (1) The key findings from the survey related to seeking input from parents/guardians in school and district decision making;
- (2) The key findings from the survey related to promoting parental participation in programs; and
- (3) Why the LEA chose the selected survey and whether the findings relate to the goals established for other LCFF priorities in the LCAP.

**OPTION 2: Local Measures**

Summarize:

- (1) The LEA’s progress on at least one measure related to seeking input from parents/guardians in school and district decision making;
- (2) The LEA’s progress on at least one measure related to promoting parental participation in programs; and
- (3) Why the LEA chose the selected measures and whether the findings relate to the goals established for other LCFF priorities in the LCAP.

Examples of measures that LEAs could select are listed below.

*A. Seeking Input in School/District Decision Making*

1. Measure of teacher and administrator participation in professional development opportunities related to engaging parents/guardians in decision making.
2. Measure of participation by parents/guardians in trainings that also involve school/district staff to build capacity in working collaboratively.
3. Measure of parent/guardian participation in meetings of the local governing board and/or advisory committees.

*B. Promoting Participation in Programs*

1. Measure of whether school sites have access to interpretation and translation services to allow parents/guardians to participate fully in educational programs and individual meetings with school staff related to their child’s education.
2. Measure of whether school sites provide trainings or workshops for parents/guardians that are linked to student learning and/or social-emotional development and growth.
3. Measure of whether school and district staff (teachers, administrators, support staff) have completed professional development on effective parent/guardian engagement in the last two school years.

**LCFF Priority 6: School Climate**

*Standard:* LEA administers a local climate survey at least every other year that provides a valid measure of perceptions of school safety and connectedness, such as the California Healthy Kids Survey, to students in at least one grade within the grade span(s) that the LEA serves (e.g., K-5, 6-8, 9-12), and reports the results to its local governing board **at a regularly scheduled meeting of the local governing board** and to stakeholders and the public through the Dashboard.

*Evidence:* LEA administers a survey as specified and reports the results to its local governing board and through the local data selection option in the Dashboard.

Proposed Local Data Reporting Interface:

LEAs will provide a narrative summary of the local administration and analysis of a local climate survey that captures a valid measure of student perceptions of school safety and connectedness in at least one grade within the grade span (e.g., K–5, 6–8, 9–12). Specifically, LEAs will have an opportunity to include differences among student groups, and for surveys that provide an overall score, such as the California Healthy Kids Survey, report the overall score for all students and student groups. This summary may also include an analysis of a subset of specific items on a local survey that is particularly relevant to school safety and connectedness.

[Insert LEA summary of school climate results.]

**LCFF Priority 9: Coordination of Services for Expelled Students**

*Standard:* COE annually measures its progress in coordinating instruction as required by EC Section 48926 and reports the results to its local governing board **at a regularly scheduled meeting of the local governing board** and to stakeholders and the public through the evaluation rubrics.

*Evidence:* COE determines its progress through the use of a self-assessment tool that will be included in the Dashboard, and report these results to its local governing board and through the local data selection option in the Dashboard.

*Proposed Self-Assessment Tool:*

**Assess the degree of implementation of the progress in coordinating instruction for expelled students in your county?**

|  | Exploration and Research Phase | Beginning Development | Initial Implementation | Full Implementation | Full Implementation and Sustainability |
|--|--------------------------------|-----------------------|------------------------|---------------------|--|
| <b>1. Assessing status of triennial plan for providing educational services to all expelled students in the county, including:</b>   | -                              | -                     | -                      | -                   | -                                      |
| a. Review of required outcome data.  | 1                              | 2                     | 3                      | 4                   | 5                                      |
| b. Identifying existing educational alternatives for expelled pupils, gaps in educational services to expelled pupils, and strategies for filling those service gaps.  | 1                              | 2                     | 3                      | 4                   | 5                                      |
| c. Identifying alternative placements for pupils who are expelled and placed in district community day school programs, but who fail to meet the terms and conditions of their rehabilitation plan or who pose a danger to other district pupils.  | 1                              | 2                     | 3                      | 4                   | 5                                      |
| <b>2. Coordinating on development and implementation of triennial plan with all LEAs within the county.</b>  | 1                              | 2                     | 3                      | 4                   | 5                                      |
| <b>3. Establishing ongoing collaboration and policy development for transparent referral process for LEAs within the county to the county office of education or other program options, including dissemination to all LEAs within the county a menu of available continuum of services for expelled students.</b> | 1                              | 2                     | 3                      | 4                   | 5                                      |
| <b>4. Developing memorandum of understanding regarding the coordination of partial credit policies between district of residence and county office of education.</b>   | 1                              | 2                     | 3                      | 4                   | 5                                      |

***Coordination of Services for Foster Youth (Priority 10)***

Standard: COE annually measures its progress in coordinating services for foster youth and reports the results to its local governing board ***at a regularly scheduled meeting of the local governing board*** and to stakeholders and the public through the Dashboard.

Evidence: COE would determine its progress through the use of a self-assessment tool that will be included in the evaluation rubrics web-based user interface, and report the results to its local governing board and through the local data selection option in the Dashboard.

Proposed Self-Assessment Tool:

**Assess the degree of implementation of coordinated service program components for foster youth in your county?**

|   | Exploration and Research Phase | Beginning Development | Initial Implementation | Full Implementation | Full Implementation and Sustainability |
|---|--------------------------------|-----------------------|------------------------|---------------------|--|
| 1. Establishing ongoing collaboration and supporting policy development, including establishing formalized information sharing agreements with child welfare, probation, Local Education Agency (LEAs), the courts, and other organizations to support determining the proper educational placement of foster youth (e.g., school of origin versus current residence, comprehensive versus alternative school, and regular versus special education). | 1                              | 2                     | 3                      | 4                   | 5                                      |
| 2. Building capacity with LEA, probation, child welfare, and other organizations for purposes of implementing school-based support infrastructure for foster youth intended to improve educational outcomes (e.g., provide regular professional development with the Foster Youth Liaisons to facilitate adequate transportation services for foster youth).  | 1                              | 2                     | 3                      | 4                   | 5                                      |
| 3. Providing information and assistance to LEAs regarding the educational needs of foster youth in order to improve educational outcomes.   | 1                              | 2                     | 3                      | 4                   | 5                                      |
| 4. Providing direct educational services for foster youth in LEA or county-operated programs provided the school district has certified that specified services cannot be provided or funded using other sources, including, but not limited to, Local Control Funding Formula, federal, state or local funding.  | 1                              | 2                     | 3                      | 4                   | 5                                      |
| 5. Establishing ongoing collaboration and supporting development of policies and procedures that facilitate expeditious transfer of records, transcripts, and other relevant educational information.   | 1                              | 2                     | 3                      | 4                   | 5                                      |
| 6. Facilitating the coordination of post-secondary opportunities for youth by engaging with systems partners, including, but not limited to, child welfare transition planning and independent living services, community colleges or universities, career technical education, and workforce development providers.  | 1                              | 2                     | 3                      | 4                   | 5                                      |
| 7. Developing strategies to prioritize the needs of foster youth in the community, using community-wide assessments that consider age group, geographical area, and identification of highest needs students based on academic needs and placement type.  | 1                              | 2                     | 3                      | 4                   | 5                                      |
| 8. Engaging in the process of reviewing plan deliverables and of collecting and analyzing LEA and COE level outcome data for purposes of evaluating effectiveness of support services for foster youth and whether the investment in services contributes to improved educational outcomes for foster youth.  | 1                              | 2                     | 3                      | 4                   | 5                                      |

# Appendix C

## Academic Indicator and Grade Eleven Distance from Level 3: Inclusion and Exclusion Rules

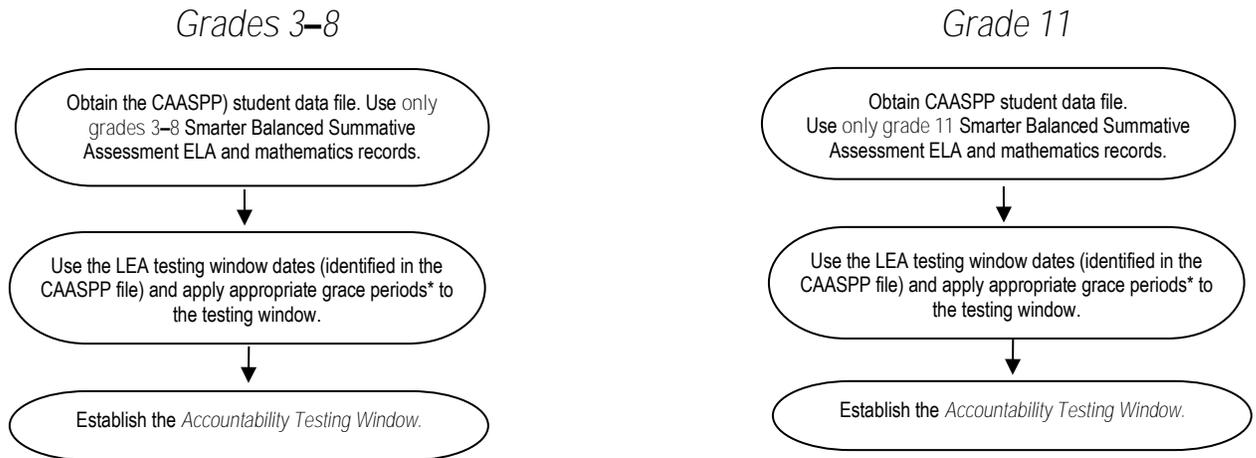

Inclusion/Exclusion Flowchart to Determine Which Students Should Be Included in the Academic Indicator and the Grade 11 Distance from Level 3 Report

Step 1a: Determine the Accountability Testing Window for the Smarter Balanced Assessments, Grades Three Through Eight and Eleven

*Accountability Testing Window for Smarter Balanced Summative Assessments*

**Determine for each school, per grade span(s) and testing administration, as applicable.**

*(Note that California Alternate Assessment results are not included in the calculations.)*

**\*Grace Periods for the Smarter Balanced Summative Assessments**

All grace periods are "calendar days" meaning that weekends and holidays are included in the count. In addition, the testing windows includes any extensions added to the original testing window per request by the LEA.

- **Testing Window is 14 Calendar Days or Less:** Schools with a testing window of 14 calendar days or less *do not have any* grace periods. In this instance, the 14 days (or less) is the accountability testing window.
- **Testing Window is 15 to 30 Calendar Days:** Schools with a testing window of 15 to 30 calendar days have a 14-day grace period applied *at the end* of the testing window.
- **Testing Window is 31 or More Calendar Days:** Schools with a testing window of 31 or more calendar days have two 14-day grace periods: one at the beginning of the testing window and one at the end.

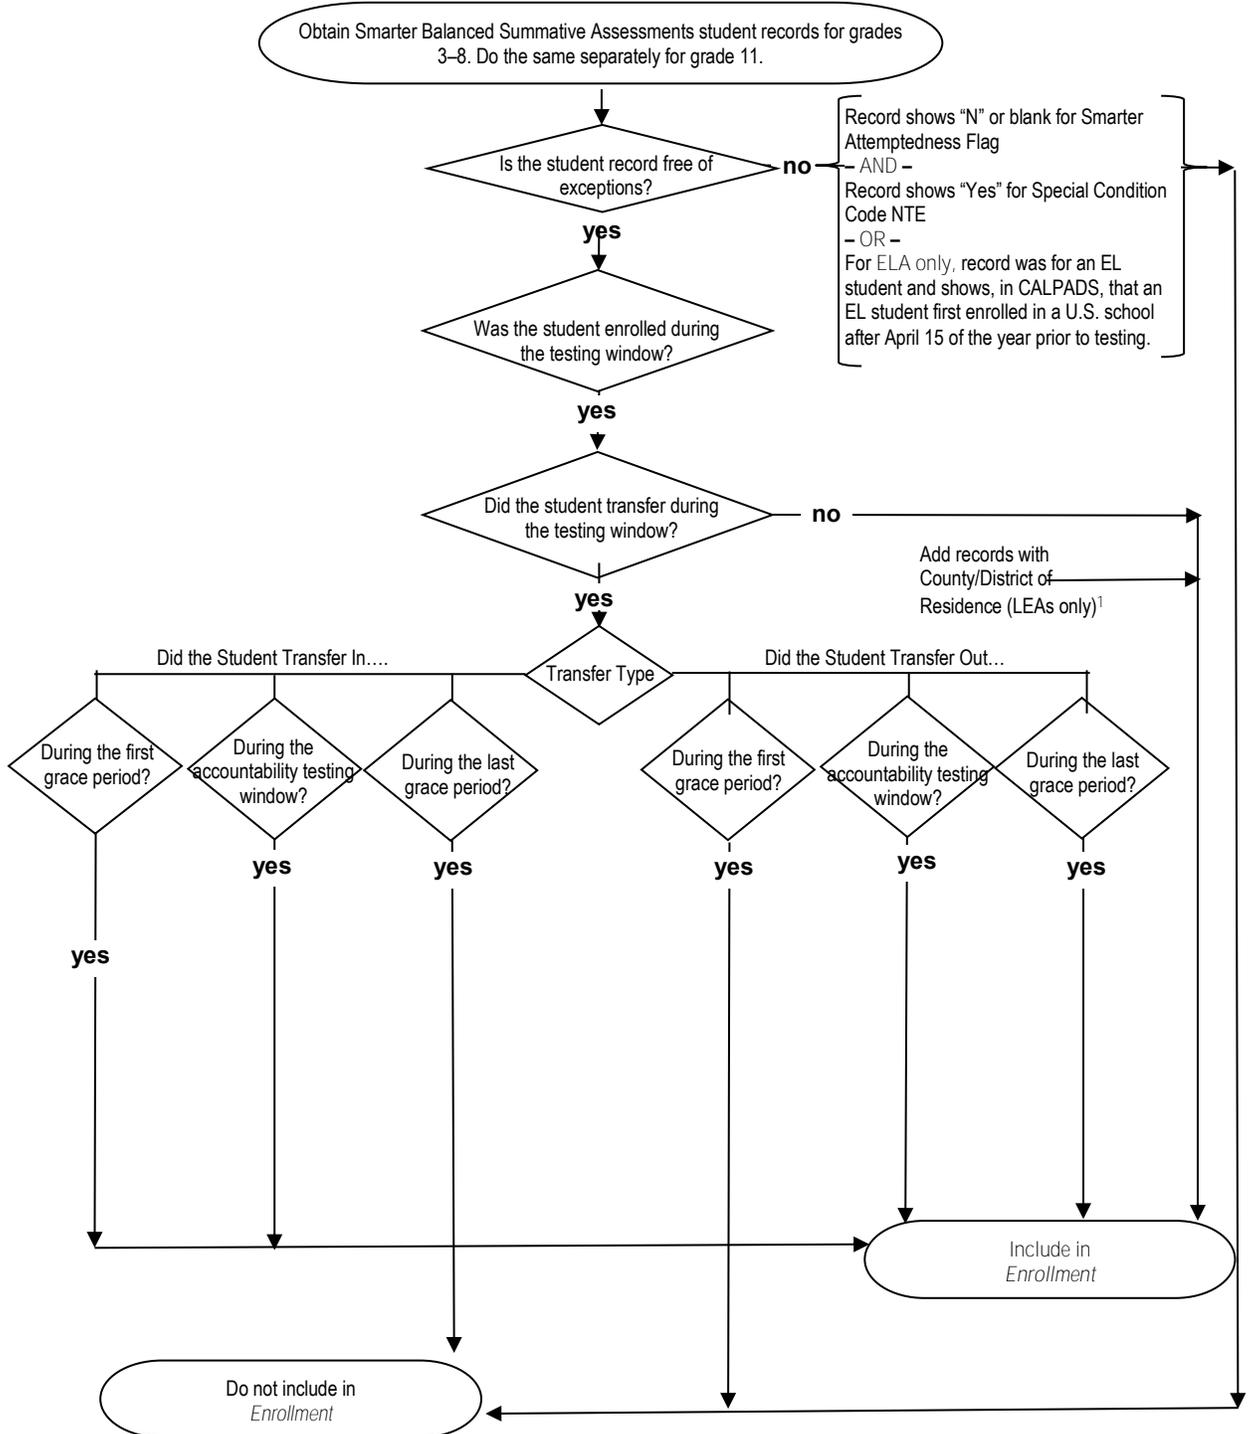

# Inclusion/Exclusion Rules Flowchart

## Step 2: Smarter Balanced Summative Assessments, Grades Three Through Eight and Eleven

Testing Codes are listed on page 104

### Enrollment During the Testing Window

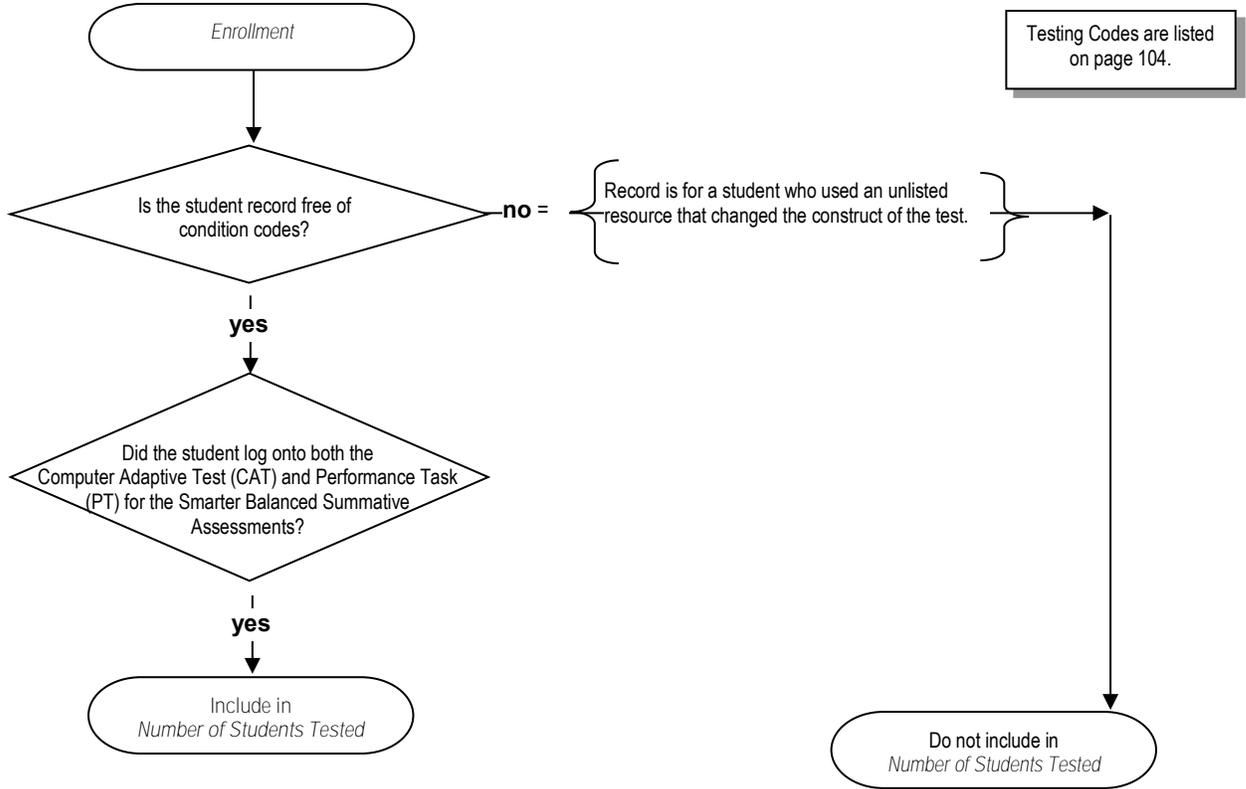

Calculate for each school, LEA, or student group separately in ELA and mathematics, and calculate separately for: (1) grades three through eight and (2) grade eleven.

<sup>1</sup> For LEAs only, a student record with a valid County/District of Residence code and a valid Primary Disability code (other than 000) is included in the county/district of residence for the LEA report if the student's school of attendance (normal County-District-School [CDS] code) is a special education school. The record is also included in the student's school of attendance.

### Number of Students Tested

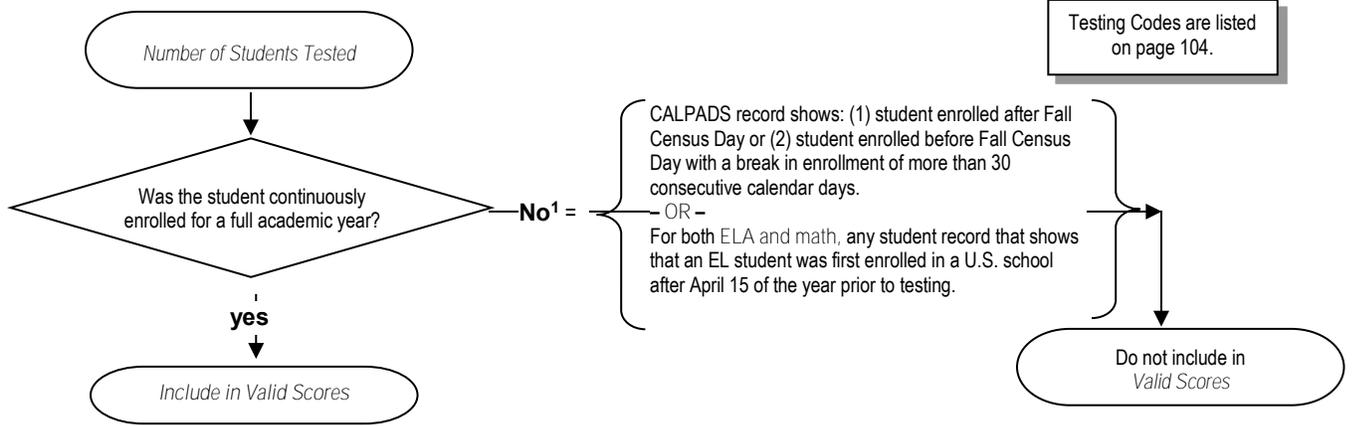

Calculate for each school, LEA, or student group separately in ELA and mathematics, and calculate separately for: (1) grades three through eight and (2) grade eleven.

## Inclusion/Exclusion Flowchart Step 3: Grades Three Through Eight and Eleven

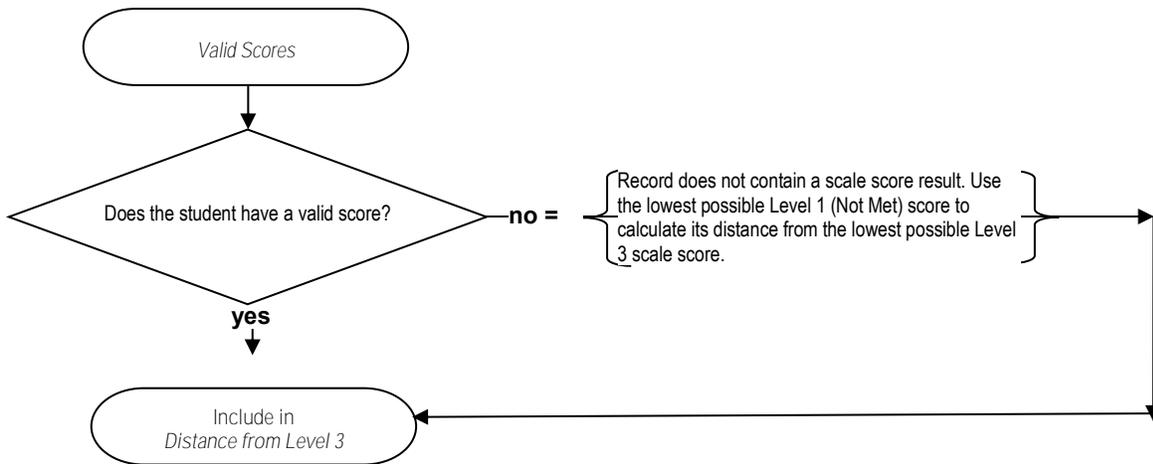

### Valid Scores

Calculate for each school, LEA, or student group separately in ELA and mathematics, and calculate separately for: (1) grades three through eight and (2) grade eleven.

### Distance from Level 3

Calculate for each school, LEA, or student group separately in ELA and mathematics, and calculate separately for: (1) grades three through eight and (2) grade eleven.

<sup>1</sup> "Continuously enrolled" means the student was enrolled from the Fall Census Day (first Wednesday in October) through the first day of testing without a gap in enrollment of more than 30 consecutive calendar days. Mobility/Continuous Enrollment Rule: If the student has been continuously enrolled in a school, the student is counted in the school. If the student has been continuously enrolled in the LEA, the student is counted in the LEA.

## Testing Codes Used

The following are the Smarter Balanced Summative Assessment testing codes considered to determine the calculations for the Academic Indicator and the Grade 11 Distance from Level 3 Report:

### ■ Smarter Balanced Summative Assessments Testing Codes

|                                   |   |
|-----------------------------------|---|
| <b>(NTE)</b>                      | Not tested due to significant medical emergency                                 |
| (Smarter Attemptedness Flag)      | Student logged on to only a portion of the test (either CAT or PT but not both) |
| (Smarter Invalidated Status Flag) | Student record was invalidated due to a testing security incident               |

# Appendix D

## Scale Score Ranges for the Smarter Balanced Summative Assessments

### English Language Arts/Literacy

| Grade | Minimum Scale Score | Maximum Scale Score | Achievement Level Scale Score Range for Standard Not Met | Achievement Level Scale Score Range for Standard Nearly Met | Achievement Level Scale Score Range for Standard Met | Achievement Level Scale Score Range for Standard Exceeded |
|-------|---------------------|---------------------|--|---|--|---|
| 3     | 2114                | 2623                | 2114–2366  | 2367–2431   | 2432–2489  | 2490–2623   |
| 4     | 2131                | 2663                | 2131–2415  | 2416–2472   | 2473–2532  | 2533–2663   |
| 5     | 2201                | 2701                | 2201–2441  | 2442–2501   | 2502–2581  | 2582–2701   |
| 6     | 2210                | 2724                | 2210–2456  | 2457–2530   | 2531–2617  | 2618–2724   |
| 7     | 2258                | 2745                | 2258–2478  | 2479–2551   | 2552–2648  | 2649–2745   |
| 8     | 2288                | 2769                | 2288–2486  | 2487–2566   | 2567–2667  | 2668–2769   |
| 11    | 2299                | 2795                | 2299–2492  | 2493–2582   | 2583–2681  | 2682–2795   |

### Mathematics

| Grade | Minimum Scale Score | Maximum Scale Score | Achievement Level Scale Score Range for Standard Not Met | Achievement Level Scale Score Range for Standard Nearly Met | Achievement Level Scale Score Range for Standard Met | Achievement Level Scale Score Range for Standard Exceeded |
|-------|---------------------|---------------------|--|---|--|---|
| 3     | 2189                | 2621                | 2189–2380  | 2381–2435   | 2436–2500  | 2501–2621   |
| 4     | 2204                | 2659                | 2204–2410  | 2411–2484   | 2485–2548  | 2549–2659   |

## Summary of Data Used in the Dashboard

### What Data Will Be Used for the Preview and Public Release of the Spring 2017 Dashboard?

Table 1 identifies the data that will be used to calculate Status and Change for each of the state indicators, and local indicators uploaded on the Dashboard by the CDE. These data will be used for both the initial release of the Dashboard for LEA preview in February 2017 and the public release in March 2017.

Table 2 identifies which CALPADS data are used for the indicators reported by the CDE.

**Table 1**

| Indicator  | Data Used for Status   | Data Used for Change  |
|--|--|---|
| Suspension Rate  | 2014–15 suspension rate  | 2014–15 suspension rate<br><i>minus</i><br>2013–14 suspension rate  |
| English Learner Progress                                       | 2015 and 2014 CELDT + 2014 reclassification data   | 2015 and 2014 CELDT + 2014 reclassification data <i>minus</i><br>2014 and 2013 CELDT + 2013 reclassification data             |
| Graduation Rate  | 2014–15 four-year cohort graduation rate (Class of 2015)   | 2014–15 four-year cohort graduation rate<br><i>minus</i><br>Three-year weighted average (i.e., 2013–14, 2012–13, and 2011-12) |
| Academic: Grades 3-8   | 2016 Smarter Balanced Summative Assessments (ELA and mathematics)  | 2016 Average Distance from Level 3<br><i>minus</i><br>2015 Average Distance from Level 3                                      |
| College/Career (No performance level or color)                 | Graduates in the 2013–14 four-year graduation cohort (class of 2014) who are “Prepared”, “Approaching Prepared”, and “Not Prepared” on the CCI | Not Applicable  |
| Grade 11 Distance from Level 3 (No performance level or color) | 2016 Smarter Balanced Summative Assessments (ELA and mathematics)  | 2016 Average Distance from Level 3<br><i>minus</i><br>2015 Average Distance from Level 3                                      |

# Appendix F

## CALPADS Data Used in Indicators Reported by the CDE

The table below identifies the CALPADS data that are used for each of the indicators reported in the Dashboard by the CDE.

| <b>Data Used from CALPADS</b>                                    | <b>Suspension Rate</b> | <b>English Learner Progress</b> | <b>Graduation Rate</b> | <b>Academic: Grades 3-8</b> | <b>College/ Career</b> | <b>Grade 11 Distance from Level 3</b> |
|--|------------------------|---------------------------------|------------------------|-----------------------------|------------------------|---------------------------------------|
| Enrollment   | Yes                    | Yes                             | Yes                    | Yes                         | Yes                    | Yes                                   |
| Exit Date  | N/A                    | Yes                             | Yes                    | Yes                         | Yes                    | Yes                                   |
| Discipline   | Yes                    | N/A                             | N/A                    | N/A                         | N/A                    | N/A                                   |
| School Completion (Graduated)                                    | N/A                    | N/A                             | Yes                    | N/A                         | Yes                    | N/A                                   |
| a-g Completion   | N/A                    | N/A                             | N/A                    | N/A                         | Yes                    | N/A                                   |
| Career Technical Education (CTE) Completion                      | N/A                    | N/A                             | N/A                    | N/A                         | Yes                    | N/A                                   |
| Dual Enrollment  | N/A                    | N/A                             | N/A                    | N/A                         | Yes                    | N/A                                   |
